Worlds in Harmony The Dalai Lama, 2009-05-15 The Dalai Lama represents a great culture centered on a wisdom tradition that has survived intact into modern times And the fragility of our times is demonstrated by the fact that even that culture survives only in exile Science and technology have brought immense control over nature but power without wisdom is dangerous We need to balance our modern capabilities with an ancient wisdom His Holiness the Dalai Lama often speaks of the interconnectedness of all things In a sense that means we are all in this together He has said also that just because these times are so dire it is a great honor to be alive now at this moment on this planet It is we who bear the responsibility who face the challenge who must take care of the planet not just for ourselves but for the future and for our children

Un mondo in armonia Dalai Lama, 2011-08-29 Scienza e tecnologia consentono un grande controllo sulla natura Ma il potere senza saggezza pericoloso Povertà malattie fame devastazioni ambientali il nostro mondo non conosce armonia Eppure gli strumenti per ricrearla sono dentro di noi compassione gentilezza ascolto

Life in Freedom Michael Amaladoss, 2014-04-17 In Life in Freedom Michael Amaladoss analyzes the many rich and complex strands of Asian religious thought on the notion and nature of the path toward liberation As he shows Asian liberation theology departs significantly from the Latin American model with which it is commonly compared Rather than put primary emphasis on economic issues Asian cultures give much greater priority to the role of religion in the composition of a healthy society In Part One Amaladoss discusses current liberation movements and thought in Korea the Philippines and India In two other chapters he shows also that the awakening of women is integral to

the search for human freedom and development and the growing importance sound ecological policies in any valid approach to liberation in Asia In Part Two Amaladoss discusses non Christian approaches to human liberation and freedom showing how the lives and thought of influential figures of other faiths have given distinctive shape to Asian approaches to liberation Buddhists such as Thich Nhat Hanh and Hindus such as Mahatma Gandhi and E V Ramaswamy show that hostility to religion is remote from the most characteristic Asian liberation movements Gandhi s entire politics was rooted in the notion that to attain Truth or to realize God is the goal of human life But God for Gandhi is realized concretely in the world and particularly in other people Service to others then becomes a way to God and ultimately to human liberation Similarly Confucian traditions embody a deeply indigenous Asian way of constructing reality as a sacred whole In that construct liberation and freedom take on meanings and dimensions functionally religious in the way they anchor individuals and the community to the cosmic whole In Part Three Amaladoss gives his own analysis and prophetic overview on how the plurality of images of liberation enriches the possibility for interreligious cooperation in overcoming the forces of oppression in Asia
