experience which may turn out to be good news for a familiar face that they find in the doomed dimension Back on our Earth the rest of the group struggles to stay alive with their new companion until the boys return The mutants and other creatures have begun to exhibit new traits and a scientist whom Eric meets may have the explanation for what s going on But the new companion is baffled by things that the group has already seen Their only hope of survival in the future is to band together with a stranger s far away group but they refuse to travel until Dan and Jake return with Max THis long awaited 11th installment strays from the familiar to the extraordinary to be the possibly weirdest chapter yet
