Manual for Guiding Techniques Ettore Amato,2021-06-15 As far as I am aware Tourist Guide Techniques have not previously been the subject of many manuals I have decided then to offer the future tourist guides everything my long career in the tourism field has taught me about the technical aspects of guiding This to help them to better understand their role as interpreters of what is observed and how to practise it efficiently There is no such thing as a universal way in which to guide tourists since this art and profession derives its uniqueness from the spontaneity and individual charisma of each tourist guide What is presented in this manual is a method based on assorted suggestions and procedures that will assist the tourist guides and establish a sound understanding of what they must know This manual therefore does not intend to supply a set formula which must be followed slavishly since that would inhibit the individual creativity which each tourist guide should possess Instead this manual provides a mean to better prepare them TECHNICALLY for their future tasks Author

International Handbook on Ecotourism Roy Ballantyne, Jan Packer, 2013-01-01 Roy and Jan have assembled a timely snapshot of our current understanding of ecotourism both as a concept worthy of scientific inquiry and as an increasingly significant segment of global commerce and industry. A terrific piece of work. Sam Ham, University of Idaho, US. In the 30 or so years since it became established in the tourism literature and in tourism practice, ecotourism has attracted as many proponents as opponents. This Handbook now brings together some of the leading scholars worldwide in this field to explore the current position of this form of tourism. In doing so, it offers serious critiques, it explores meanings and paradoxes, it offers best practices and it looks to the future. It is the Handbook for one of tourism's fastest growing and controversial sectors. David Airey, University of Surrey, UK. This is a most welcome and needed book.
