Polarized

Pasts Elisabeth Niklasson,2023-01-13 When questions of belonging enter the forefront of political debates so too does heritage This volume draws critical voices from archaeology anthropology and the classics into a conversation about political uses of the past in times of radical right populism The authors show how ancient monuments and sites bygone eras and political regimes and even your genetic ancestry can become wrapped up in polarized political debates They also highlight how heritage which is often thought of as a common good can be dangerous in times of political polarization erasing nuances between us and them Together the texts pave the way for a better understanding of the political role of heritage in society

The Fractured Subject Betty Schulz,2023-01-25 The Fractured Subject investigates the relationship of the work of Walter Benjamin and Sigmund Freud centered around the concept of the fractured subject Through a reading of Benjamin s work on sovereignty and myth Betty Schulz establishes the emergence of this fractured subject in the Baroque and links these themes to Mourning and Melancholia and two of Freud s case studies showing that melancholia and possession emerge as two responses to the baroque loss of a cosmological horizon Turning to Benjamin s work on the nineteenth century in the Arcades Project Schulz delineates the persistence of this fractured subject showing how Benjamin conceptualises its development over the course of modernity while analyzing the change of memory and experience in modernity Finally having introduced the importance of the dream in the Arcades Project and associated work Schulz examines Benjamin s dream theory establishing the ways it draws from Freud as well as Benjamin s concept of awakening as a therapeutic collective political gesture that points beyond the fractured subject

Royalists, Radicals, and les Misérables Eric Martone,2014-10-02 The year of 1832 marked a turning point in France as the country struggled to find its way in the wake of the French Revolution Following the Revolution of 1830 Legitimists supporters of the recently ousted Bourbon dynasty s claim to the throne continued to plot against King Louis Philippe and his July Monarchy In early 1832 after failing to launch a coup in Southern France Legitimists plotted an unsuccessful uprising in the Vendée a region in Western France that had supported the royalist cause during the French Revolution The Duchesse de Berry led the rebellion in the hopes of placing her son the Bourbon heir on the French throne The revolt marked the last attempt by the Bourbons to retake the throne by force and helped solidify the end of the Bourbon dynasty During the cholera outbreak which also spread throughout France in 1832 lower income areas suffered higher losses to the disease for they were more likely to have contaminated water supplies The lower classes spread rumors that the outbreak was an elitist plot to subdue the masses and the epidemic exacerbated class tensions Meanwhile conditions in France continued to be characterized by violence during the early 1830s as Louis Philippe attempted to establish his regime s authority The most significant of these uprisings was the republican dominated June

Revolution of 1832 Victor Hugo and other contemporaries perceived the barricades of June as natural extensions of the cholera epidemic or the political continuation of a biological crisis The sad fate of the uprising however prompted republicans to regroup and develop new strategies for success As a whole then 1832 helped solidify the end of the Bourbon monarchy and class identities and was a crucial moment in the re organization and growing solidification of French republicanism that paved the way for the Revolution of 1848 This edited collection examines these three pivotal events in French history in 1832 a royal Legitimist uprising led by the Duchesse de Berry the cholera epidemic and the June Revolution featured in the climax of Hugo s novel *Les Misérables* within the context of the legacy of the French Revolution While the events of 1832 are significant they have been relatively ignored because scholars have been distracted by the Revolutions of 1830 and 1848 This collection is the first piece of scholarship to examine these three events in an interconnected pattern to better examine France as it transitioned from a monarchy to a republic As a result this collection will be of value to both historians and academics studying diverse subfields within French and European studies

Civilizations Felipe Fernandez-Armesto, 2001-09-14 In *Civilizations* Felipe Fernandez Armesto once again proves himself a brilliantly original historian capable of large minded and comprehensive works here he redefines the subject that has fascinated historians from Thucydides to Gibbon to Spengler to Fernand Braudel the nature of civilization To Fernandez Armesto a civilization is civilized in direct proportion to its distance its difference from the unmodified natural environment by its taming and warping of climate geography and ecology The same impersonal forces that put an ocean between Africa and India a river delta in Mesopotamia or a 2 000 mile long mountain range in South America have created the mold from which humanity has fashioned its own wildly differing cultures In a grand tradition that is certain to evoke comparisons to the great historical taxonomies each chapter of *Civilizations* connects the world of the ecologist and geographer to a panorama of cultural history In *Civilizations* the medieval poem *Sir Gawain and the Green Knight* is not merely a Christian allegory but a testament to the thousand year long deforestation of the trees that once covered 90 percent of the European mainland The Indian Ocean has served as the world s greatest trading highway for millennia not merely because of cultural imperatives but because the regular monsoon winds blow one way in the summer and the other in the winter In the words of the author Unlike previous attempts to write the comparative history of civilizations it is arranged environment by environment rather than period by period or society by society Thus seventeen distinct habitats serve as jumping off points for a series of brilliant set piece comparisons thus tundra civilizations from Ice Age Europe are linked with the Inuit of the Pacific Northwest and the Mississippi mound builders and the deforesters of eleventh century Europe are both understood as civilizations built on woodlands Here of course are the familiar riverine civilizations of Mesopotamia and China of the Indus and the Nile but also highland civilizations from the Inca to New Guinea island cultures from Minoan Crete to Polynesia to Renaissance Venice maritime civilizations of the Indian Ocean and South China Sea even the Bushmen of Southern Africa are seen through a lens

provided by the desert civilizations of Chaco Canyon More here are fascinating stories brilliantly told of the voyages of Chinese admiral Chen Ho and Portuguese commodore Vasco da Gama of the Great Khan and the Great Zimbabwe Here are Hesiod s tract on maritime trade in the early Aegean and the most up to date genetics of seed crops Erudite wide ranging a work of dazzling scholarship written with extraordinary flair Civilizations is a remarkable achievement a tour de force by a brilliant scholar *Humanities* ,1983 *The Gregg Shorthand Magazine* ,1919 *Political Science in India* Rajendra Narayan Sharma,Santosh Bakshi,1978
