

**The Beginnings of World History****Lesson 1**

# The Study of World History

**Key Terms and People**

**historiography** the study and writing of history

**civilization** a culture with advanced cities, specialized workers, complex institutions, record keeping, and advanced technology

**artifacts** remains, such as tools, jewelry, and other human-made objects

**hominid** human or other creature that walks upright

**Before You Read**

In this lesson, you will read about how and why we study history.

**As You Read**

Use a diagram to organize the lesson's main ideas and details.

**GEOGRAPHY**

**How does geography affect how a civilization develops?**

The people who study history are also the people who write about history. They piece together the information they find in order to understand people from the past. Their field of study is called **historiography**.

Social scientists also use geography to study history. The book *Guns, Germs, and Steel* looks at how geography helped and hurt civilizations in the past. Jared Diamond, the book's author, explained the three factors that helped Eurasian civilizations succeed: good temperatures and locations for agriculture, resistance to certain deadly germs, and the ability to develop technology.

Where a group of people settle can affect how, when, and in what way they

develop. The island nation of Japan was very isolated from the West before the mid-1800s. By the early 1900s, Japanese people were trading with the West and the country was considered a world power. Great Britain, also an island nation, developed much earlier. Britain was part of the Roman Empire. It later joined other European countries to start colonies around the world. The British had to develop a strong navy in order to protect its own empire around the globe.

1. Why did Japan develop later than Great Britain?

**An Opaque Mirror for Trajan** Laurens van der Wiel, 2024-01-19 Plutarch's *Regum et imperatorum apophthegmata* Sayings of Kings and Commanders holds a peculiar position in his oeuvre This collection of almost 500 anecdotes of barbarian Greek and Roman rulers and generals is introduced by a dedicatory letter to Trajan as a summary of the author's well known and widely read *Parallel Lives* The work is therefore Plutarch's only text that explicitly addresses a Roman emperor and is likely to shed light on his biographical technique Yet the collection has been understudied because its authenticity has been generally rejected since the nineteenth century Recent scholarship defends Plutarch's authorship of the text but some remain sceptical This book restores its reputation and provides a first full literary analysis of the letter and collection as a genuine work of Plutarch wherein he attempts to educate his ruler by means of great role models of the past Plutarch's thinking about the function of role models *exempla* is not only relevant for Plutarchan research but also for our knowledge of exemplarity a key feature both in Greek and Latin literature in the early imperial period in general Therefore *An Opaque Mirror for Trajan* is also of interest for literary and historical scholars who study the broader context of ancient literature of the first centuries CE
