*Journey to the People's Republic of China; Review & Analysis* Kalman Dubov, On a Holland America Grand Voyage aboard the flagship Amsterdam I had the great fortune of visiting the ancient land of China now known as the People's Republic of China This visit enabled me to for the first time to walk part of the way of the Great Wall visit the Old Summer Palace and see Tien An Men Square and the Forbidden City Besides visiting the capital city the ship also visited Shanghai and Hong Kong China is a huge country whose history goes back millennia The places we visited provided but a glimpse of that history and its current politics In this volume I review China's ancient history with an overview of the many dynasties that made China great For many years China stood at the forefront of technological and scientific discovery known today as the Four Great Discoveries the compass making paper gunpowder and printing Each of these transformed the world in its own way Yet the advancement of science and technology did not stay in China The great conundrum today is exploring the reasons China lost its ability to stand at the helm of such advancement I explore this issue while reviewing the complexities of how China lived both in its dynastic and modern periods Ancient China had civil service examinations as a method to identify the best and brightest minds and then to employ them for service to the emperor Jinshi the highest and most difficult examination was so complicated the successful candidates name was inscribed on stone then selected to remain in Beijing in service to the emperor Such examinations later migrated to other countries in the Far East then to the West where it is in common use today China and its millennium long history reflect an ancient people who today seek to assert their presence and power on the world stage Prior to its current form of government it was forced to capitulate to Western colonial powers Revolts by the Chinese against such foreign intervention resulted in the Opium Wars the loss of Hong Kong and the destruction of its Old Summer Palace I explore China's bitter past together with its current belligerence on the world stage

as it seeks to redevelop and transform itself from the ancient Silk Road into the modern OBOR One Belt One Road with dramatic effect on many peoples and nations I also noted the conundrum of seeing tall high rise clusters of apartment buildings structures that could house thousands of people but stand completely empty Passing these buildings at night was eerie not a single light or human is visible anywhere The claim of a surging China at least in the places I visited made me wonder if the building boom the media and economists claim is but a bubble soon to evaporate in the glare of inquiry and reality Nonetheless this visit was dramatic in its own way offering many varieties of the different strata of this complex society During this visit I explored the Jewish community first in Shanghai then in Hong Kong Several Jewish passengers joined to attend the Sabbath Service at the Chabad House We were warmly welcomed and saw a robust community in this remote part of the world In Hong Kong we visited several synagogues noting the pride and activity present in these communities I explore the history of the Jewish community in these centers with a special interest in the Jewish Ghetto of Shanghai where thousands of European Jews were sheltered during the Nazi s Final Solution They were given refuge in Shanghai and the area they lived in is still visible by way of a museum and plaques indicating where they lived and survived the war years The enormity of China demands a multi volume effort to do justice to its geography and history This is but a small contribution of this ancient land
