Pageant World History Gerald Leinwand,1990 Dear students I want to share a dream with you I dreamed that a young person of 14 whom I was going to be teaching would become president of the United States during the first half of the twenty first century As a teacher I was struck by this immense responsibility What should I teach my student about the world as preparation for this awesome task How could my world history class help this person to mature into an intelligent and humane president and leader of the free world **Virginia Journal of Education** ,2003 [A Primer for Teaching World History](#) Antoinette Burton,2012 This book offers principles to consider when creating a world history syllabus it prompts a teacher rather than aiming for full world coverage to pick an interpretive focus and thread it through the course It will be used by university faculty graduate students and high school teachers who are teaching world history for the first time or want to rethink their approach to teaching the subject **When I Fell** Michael Murphy,2021-01-05 1 6 seconds That s how long it takes to fall two stories That s how long it takes for life to change When Michael Murphy was 21 he fell off a roof at college and landed flat on his back severing his spine They say that nobody understands their own traumatic injury just after it happens but Michael did Every person falls They fall short in school in life in work and in love Their lives sometimes feel punctuated by those downfalls the rejection letters the unrequited love the missed promotions the life altering traumas Everyone falls But then what When I Fell is a true tale of going from abled to disabled to empowered It combines the story surrounding Michael s recovery with the science of resiliency and thriving what psychologists are now calling Posttraumatic Growth PTG to teach readers how to hit home runs when life throws them curves Befitting new mainstream acceptance for disabilities When I Fell is as much a memoir as it is a message It features the five principles established by Drs Tedeschi and Calhoun the pioneers who coined the phrase in the 1990 s for scientific validation to bring PTG further into the public eye
