**Humane Governance** Richard A. Falk, 1995 This book contends that the forces of late modernism are being caught between a capital driven globalization and a territorially rooted revival of tribalism and ultra nationalism Its critical focus is on global structures that are producing new patterns of North South and rich poor domination as well as exerting dangerous pressures on the carrying capacities of the planet Richard Falk argues that any hopeful response to these threatening developments requires the fundamental revision of such basic ideas as sovereignty democracy and security These organizing conceptions of political life are being reshaped during this era of transition from a state centric world of geopolitics to a more centrally guided world of geogovernance He contends that geogovernance will have adverse consequences for the human condition unless it can be mainly constructed by transnational democratic forces animated by a vision of humane governance This volume was written for the Global Civilization Project of the World Order Models Project WOMP an international group of scholars formed to think creatively about legal and political structures adequate to the needs of the modern world **How**

**to save politics in a post-truth era** Ilan Zvi Baron, 2018-02-15 The rise of populism Donald Trump's election and the result of the EU referendum in the UK have been widely interpreted as a rejection of the post war liberal order the manifestation of a desire to undermine the political system that people feel has let them down Yet mainstream politicians and analysts have been slow to grasp the changing situation instead relying on a rhetoric of hard data and narrow economic arguments while failing to properly engage with the politics of identity This book argues that the relationship between methodology and politics is now more important than ever that politics if it is anything is about engaging with people's interpretations and narratives of the world in which they find themselves Politics in this new post truth era will require an appreciation of the fact we live in an uncertain world of endless diversity and potential for change This thoughtful book addresses how we might think about and do politics in these strange new times
