Confucianism as a World Religion Anna Sun, 2013-04-21 Is Confucianism a religion If so why do most Chinese think it isn't From ancient Confucian temples to nineteenth century archives to the testimony of people interviewed by the author throughout China over a period of more than a decade this book traces the birth and growth of the idea of Confucianism as a world religion The book begins at Oxford in the late nineteenth century when Friedrich Max Müller and James Legge classified Confucianism as a world religion in the new discourse of world religions and the emerging discipline of comparative religion Anna Sun shows how that decisive moment continues to influence the understanding of Confucianism in the contemporary world not only in the West but also in China where the politics of Confucianism has become important to the present regime in a time of transition Contested histories of Confucianism are vital signs of social and political change Sun also examines the revival of Confucianism in contemporary China and the social significance of the ritual practice of Confucian temples While the Chinese government turns to Confucianism to justify its political agenda Confucian activists have started a movement to turn Confucianism into a religion Confucianism as a world religion might have begun as a scholarly construction but are we witnessing its transformation into a social and political reality With historical analysis extensive research and thoughtful reflection Confucianism as a World Religion will engage all those interested in religion and global politics at the beginning of the Chinese century

Museums of World Religions Charles Orzech, 2020-05-14 Critically examining the notion of world religions Charles D Orzech compares five purpose built museums of world religions and their online extensions Inspired by the 19th and 20th century discipline of comparative religion these museums seek to promote religious tolerance by representing religious diversity and by arguing for underlying kinship among religions From locations in Europe Marburg Glasgow and St Petersburg to North America Quebec to Asia Taipei each museum advances a particular cultural history This book shows how the curation of the objects they contain shapes public perceptions of religion giving material form to the discourses about religion and world religions Raising important questions about religion and secularity museum displays and religious piety Museums of World Religions questions the ideology that informs these museums Building on recent anthropological work on the agency of religious objects the author critiques these museums and suggests new approaches to displaying the matter of religion

across testaments *Baby, You are My Religion* Marie Cartier, 2014-09-11 *Baby You Are My Religion* argues that American butch femme bar culture of the mid 20th Century should be interpreted as a sacred space for its community Before Stonewall when homosexuals were still deemed mentally ill these bars were the only place where many could have any community at all *Baby You are My Religion* explores this community as a site of a lived corporeal theology and political space It reveals that religious institutions such as the Metropolitan Community Church were founded in such bars that traditional and non traditional religious activities took place there and that religious ceremonies such as marriage were often conducted within the bars by staff *Baby You are My Religion* examines how these bars became not only ecclesiastical sites but also provided the fertile ground for the birth of the struggle for gay and lesbian civil rights before Stonewall *The Story of God* B.K. Karkra, 2020-07-22 The universe that we see is real and it has been functioning in an orderly manner since the times immemorial It is thus logical to believe that its Creator and Caretaker also has to be a reality However the God who has made man and all else is beyond all history All that we know about His story is His creation Beyond that we know nothing However man has created many Gods after his own image out of his imagination These man made Gods do have a story hardly about four thousand years old Since religions have God or at least spirituality at their core these also needed to be given a hearing in this work This book is an intellectually stimulating account of what various faiths talk about God *Christianity the World-religion* John Henry Barrows, 1897 **Amazon Planet** Mack Reynolds, 2013-02-25 Amazonia had a reputation for strangeness even among the zany worlds of the United Federation of Planets It was a spartan planet ruled by a fearsome military caste made up exclusively of women The males of Amazonia usually wound up in some warrior s harem When Guy Thomas arrived he was allowed the privilege of landing only because he offered the government profitable trade agreements but it wasn t long before his real plans were fulfilled by his secret meetings with the male liberationist revolutionary group The Sons of Liberty They needed a lot of help The more he got involved however the more he got the feeling that something was wrong with the whole setup Guy Thomas was soon to learn that there was more to Amazonia than met the eye and he wasn t going to like the truth at all *Encyclopedia of Global Religion* Mark Juergensmeyer, Wade Clark Roof, 2012 Presents entries A to L of a two volume encyclopedia discussing religion around the globe including biographies concepts and theories places social issues movements texts and traditions *False Dawn* Lee Penn, 2004 The interfaith movement which began with the 1893 World s Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today s interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the

province of a coterie of little heeded religious idealists with grandiose visions The URI's proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans K ng and from the Dalai Lama to the leaders of government approved Protestant churches in the People's Republic of China The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union In The Reign of Quantity and the Signs of the Times French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non's time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left False Dawn painstakingly documents these trends and speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century This extraordinary project is the literary equivalent of turning over a flat rock There is much to be seen and learned here all of it unsettling disquieting occasionally downright scary William Murchison Radford Distinguished Professor Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods something has gone horribly wrong In False Dawn Lee Penn has produced a comprehensive and critical history of the United Religions Initiative This book sounds a clear warning Anyone who makes theological truth subservient to utopianism denigrates all religions Douglas LeBlanc Editor GetReligion.org **Global Religious Movements Across Borders** Stephen M. Cherry, Helen Rose Ebaugh, 2016-04-22 From global missionizing among proselytic faiths to mass migration through religious diasporas religion has traveled from one side of the world and back again It continues to play a prominent role in shaping world politics and has been a vital force in the continued emergence spread and creation of a transnational civil society Exploring how religious roots are shaping organizations that seek to aid people across political and geographic boundaries service movements this book focuses on how religious movements establish structures to assist people with basic human needs such as food clothing shelter education and health Examining a multitude of faith traditions with origins in different parts of the world seven contributing chapters with an introduction and conclusions by the senior author offer a unique discussion of the intersections between religious transnationalism and social movements Religions and Nonviolence Rachel M.
