vice versa in such a way that neither medium takes precedence Or are they in constant inexorable battle with each other Taking nine case studies from the 1990s French speaking world from France North Africa and the Caribbean this book attempts to define the interaction between non fictional written text caption essay fragment poem and photographic image Having considered three categories of intermediality between text and photography the collaborative the self collaborative and the retrospective the book concludes that the dimensions of their interaction are not simple and two fold visuality versus alongside textuality but threefold and therefore complex Thus the photo text as defined here is concerned as much with orality the demotic the popular the vernacular as it is with visual and written culture That text image collaborations give space to the spoken spectral traces of human discourse suggests that the key element of the photo text is its radical provisionality

The Decisive Network Nadya Bair, 2020-07-07 Since its founding in 1947, the legendary Magnum Photos agency has been telling its own story about photographers who were witnesses to history and artists on the hunt for decisive moments. Based on unprecedented archival research, *The Decisive Network* unravels Magnum's mythologies to offer a new history of what it meant to shoot, edit, and sell news images after World War II. Nadya Bair shows that between the 1940s and 1960s, Magnum expanded the human interest story to global dimensions while bringing the aesthetic of news pictures into new markets. Working with a vast range of editorial and corporate clients, Magnum made photojournalism integral to postwar visual culture. But its photographers could not have done this alone. By unpacking the collaborative nature of photojournalism, this book shows how picture editors, sales agents, spouses, and publishers helped Magnum photographers succeed in their

assignments and achieve fame Bair concludes in the late 1960s and early 1970s when changing market conditions led Magnum to consolidate its brand In that moment Magnum s photojournalists became artists and their assignments oeuvres Bridging art history media studies cultural history and the history of communication The Decisive Network transforms our understanding of the photographic profession and the global circulation of images in the predigital world **Naval Aviation News** ,1996 **Photography in the Third Reich: Art, Physiognomy and Propaganda** Christopher Webster,2021-01-07 This lucid and comprehensive collection of essays by an international group of scholars constitutes a photo historical survey of select photographers who embraced National Socialism during the Third Reich These photographers developed and implemented physiognomic and ethnographic photography and through a Selbstgleichschaltung a self co ordination with the regime continued to practice as photographers throughout the twelve years of the Third Reich The volume explores through photographic reproductions and accompanying analysis diverse aspects of photography during the Third Reich ranging from the influence of Modernism the qualitative effect of propaganda photography and the utilisation of technology such as colour film to the photograph as ideological metaphor With an emphasis on the idealised representation of the German body and the role of physiognomy within this representation the book examines how select photographers created and developed a visual myth of the master race and its antitheses under the auspices of the Nationalist Socialist state Photography in the Third Reich approaches its historical source photographs as material culture examining their production construction and proliferation This detailed and informative text will be a valuable resource not only to historians studying the Third Reich but to scholars and students of film history of art politics media studies cultural studies and holocaust studies *Scouting for Girls* Tammy M. lived sense that America is at war This paradox of in visibility concerns the gap between the experiences of war zones and the visual mediated experience of war in public popular culture which absents and renders invisible the former Large portions of the domestic public experience war only at a distance For these citizens war seems abstract or may even seem to have disappeared altogether due to a relative absence of visual images of casualties Perhaps even more significantly wars can be fought without sacrifice by the vast majority of Americans Yet the normalization of twenty first century war also renders it highly visible War is made visible through popular commercial mediated culture The spectacle of war occupies the contemporary public sphere in the forms of celebrations at athletic events and in films video games and other media coming together as MIME the Military Industrial Media Entertainment Network [Like a Natural Woman](#) Kirsten Pullen,2014-08-08 Bathing beauty Esther Williams bombshell Jane Russell exotic Carmen Miranda chanteuse Lena Horne and talk show fixture Zsa Zsa Gabor are rarely hailed as great actors or as naturalistic performers Those terms of praise are given to male stars like Marlon Brando and James Dean whose gritty dramas are seen as a departure from the glossy spectacles in which these stars appeared Like a Natural Woman challenges those assumptions revealing the skill and training that went into the work of these five actresses who employed naturalistic performance techniques both onscreen and off Bringing a fresh perspective to film history through the lens of performance studies Kirsten Pullen explores the ways in which these actresses who always appeared to be playing themselves responded to the naturalist notion that actors should create authentic characters by drawing from their own lives At the same time she examines how Hollywood presented these female stars as sex objects focusing on their spectacular bodies at the expense of believable characterization or narratives Pullen not only helps us appreciate what talented actresses these five women actually were but also reveals how they sought to express themselves and maintain agency even while meeting the demands of their directors studios families and fans to perform certain feminine roles Drawing from a rich collection of classic films publicity materials and studio archives Like a Natural Woman lets us take a new look at both Hollywood acting techniques and the performance of femininity itself **Connecting the Holocaust and the Nakba Through Photograph-based Storytelling** Nawal Musleh-Motut,2023-05-15 This unprecedented ethnographic study introduces a unique photography based storytelling method that brings together everyday Palestinians and Israelis to begin connecting rather than comparing their distinct yet organically connected histories of suffering and exile resulting from the Holocaust and the Nakba Working with Palestinians and Israelis living in their respective Canadian diasporas who are of the Holocaust and Nakba postmemory generations those who did not experience these traumas but are nonetheless haunted by them this study demonstrates that storytelling and photography enable the occasions and conditions of possibility necessary for willing the impossible That is by narrating and then exchanging their post memories of the Holocaust and or the Nakba through associated vernacular photographs project participants were able to connect rather than compare their histories of suffering and exile take moral ethical and political responsibility for one another and imagine
