**Selected Executive Session Hearings of the Committee, 1943-50** United States. Congress. House. Committee on International Relations, 1976     Javier Marías's Debt to Translation Gareth Wood, 2012-05-03 Javier Marías has explained many times that working as a translator of literary works from English into Spanish helped shape him as a writer This study explores those claims by analysing two things firstly his translations themselves and secondly seeing how those translations have left discernible traces in his own fiction     World Trade Information Service , 1960     **Soft War** Michael L. Gross, Tamar Meisels, 2017-06-09 Just war theory focuses primarily on bodily harm such as killing maiming and torture while other harms are often largely overlooked At the same time contemporary international conflicts increasingly involve the use of unarmed tactics employing softer alternatives or supplements to kinetic power that have not been sufficiently addressed by the ethics of war or international law Soft war tactics include cyber warfare and economic sanctions media warfare and propaganda as well as non violent resistance as it plays out in civil disobedience boycotts and lawfare While the just war tradition has much to say about hard war bullets bombs and bayonets it is virtually silent on the subject of soft war Soft War The Ethics of Unarmed Conflict illuminates this neglected aspect of international conflict     *Rethinking Asia's Economic Miracle* Richard Stubbs, 2017-09-08 In the new edition of this important contribution to understanding both the Asian economic miracle and the 1997-8 crisis Richard Stubbs assesses the main explanations to date and updates the analysis to take account of globalization and the remarkable economic rise of China     **Global Rules** James E. Cronin, 2014-10-28 Questions long perceived views of post World War II America and its position in the world especially after Vietnam The author details the challenges the economic transition of the 1970s and 1980s engendered as the US and Great Britain together actively pursued their shared ideal of an international assemblage of market based democratic states     **American Soldiers** Peter S. Kindsvatter, 2003 Some warriors are drawn to the thrill of combat and find it the defining moment of their lives Others fall victim to fear exhaustion impaired reasoning and despair This book synthesizes the wartime experiences of American soldiers from the doughboys of World War I to the grunts of Vietnam Focusing on both soldiers and marines it draws on histories and memoirs oral histories psychological and sociological studies and even fiction to show that their experiences remain fundamentally the same regardless of the enemy terrain training or weaponry     **A/AS Level English Literature A for AQA Student Book** Russell Carey, Anne Fairhall, Tom Rank, 2015-11-12 Created specifically for the AQA A/AS level English literature A specification for first teaching from 2015 this print student book is suitable for all abilities providing stretch opportunities for the more able and additional scaffolding for those who need it Helping bridge the gap between GCSE and A level the unique three part structure focuses on texts within a particular time period and supports students in interpreting texts and reflecting on how writers make meaning     Social Work with Children and Families Steve Rogowski, 2016-04-20 Professional social work has changed considerably over the last forty years coinciding with the demise

of the social democratic consensus of the post war years and the emergence and now domination of neoliberalism Rather than the state through the government of the day ensuring citizens basic needs were met via the welfare state the belief in free market economics entails people having to be self reliant and self responsible This has involved social work with children and families moving from a helping and supportive role to one that is more authoritarian this often involving telling parents to change their behaviour and lifestyle or face the consequences This book outlines the development of social work with children and families over the period in question drawing on the author s unique practice experience and his extensive writings It charts the highs and lows of social work the latter including the dominance of managerialism which emphasises speedy completion of bureaucracy so as to ration resources and assess manage risk Despite this the argument is for a critical practice which addresses service users immediate needs while simultaneously aiming towards a more socially just and equal society This book is essential reading for everyone interested in social work including academics students practitioners and managers both in the UK and overseas Social care and allied professionals more generally will also find it insightful as will academics students and educators of social policy and related disciplines
