## **World Bank Philippines Tinure Security Report:**

*The World Bank Research Program 2001* World Bank, World Bank Staff, 2001-01-01 This publication is a compilation of reports on research projects initiated under way or completed in fiscal year 2001 July 1 2000 through June 30 2001 The abstracts cover 150 research projects from the World Bank and grouped under 11 major headings including poverty and social development health and population education labor and employment environment infrastructure and urban development and agriculture and rural development The abstracts detail the questions addressed the analytical methods used the findings to date and their policy implications Each abstract identifies the expected completion date of each project the research team and reports or publications produced **World Bank** Cheryl Payer, 1982 A careful analysis of the Bank's own policy papers and reports which outlines its philosophy of development and the concrete effects of its projects

**World Development Report 2005** World Bank, 2004 Firms and entrepreneurs of all types from microenterprises to multinationals play a central role in growth and poverty reduction Their investment decisions drive job creation the availability and affordability of goods and services for consumers and the tax revenues governments can draw on to fund health education and other services Their contribution depends largely on the way governments shape the investment climate in each location through the protection of property rights regulation and taxation strategies for providing infrastructure interventions in finance and labor markets and broader governance features such as corruption The World Development Report 2005 argues that improving the investment climates of their societies should be a top priority for governments Drawing on surveys of nearly 30 000 firms in 53 developing countries country case studies and other new research the Report explores questions such as What are the key features of a good investment climate and how do they influence growth and poverty What can governments do to improve their investment climates and how can they go about tackling such a broad agenda What has been learned about good practice in each of the main areas of the investment climate What role might selective interventions and international arrangements play in improving the investment climate What can the international community do to help developing countries improve the investment climates of their societies In addition to detailed chapters exploring these and related issues the Report contains selected data from the World Bank's new program of Investment Climate Surveys the Bank's Doing Business Project and World Development Indicators 2004 an appendix of economic and social data for over 200 countries This Report offers practical insights for policymakers executives scholars and all those with an interest in economic development **Land Tenure Reform in Asia and Africa** S. Holden, K.

Otsuka, K. Deininger, 2013-08-30 Rural poverty remains widespread and persistent in South Asia and Sub Saharan Africa A group of leading experts critically examines the impact of land tenure reforms on poverty reduction and natural resource management in countries in Africa and Asia with highly diverse historical contexts **World Development Report 2006**

Francisco H. G. Ferreira, Michael Walton, 2005-01-01 Inequality of opportunity both within and among nations sustains

extreme deprivation results in wasted human potential and often weakens prospects for overall prosperity and economic growth concludes the 2006 World Development Report To correct this situation and reduce poverty more effectively Equity and Development recommends ensuring more equitable access by the poor to health care education jobs capital and secure land rights among others It also calls for greater equality of access to political freedoms and political power breaking down stereotyping and discrimination and improving access by the poor to justice systems and infrastructure To level the playing field among countries and thereby reduce global inequities that hurt the poor in developing countries the report calls for removal of trade barriers in rich countries flexibility to allow greater in migration of lower skilled people from developing countries and increased and more effective development assistance

**Global Displacements** Marion Werner,2015-10-15 Challenging the main ways we debate globalization Global Displacements reveals how uneven geographies of capitalist development shape and are shaped by the aspirations and everyday struggles of people in the global South Makes an original contribution to the study of globalization by bringing together critical development and feminist theoretical approaches Opens up new avenues for the analysis of global production as a long term development strategy Contributes novel theoretical insights drawn from the everyday experiences of disinvestment and precarious work on people s lives and their communities Represents the first analysis of increasing uneven development among countries in the Caribbean Calls for more rigorous studies of long accepted notions of the geographies of inequality and poverty in the global South

**World Development Report 2016** World Bank Group,2016-01-14 Digital technologies are spreading rapidly but digital dividends the broader benefits of faster growth more jobs and better services are not If more than 40 percent of adults in East Africa pay their utility bills using a mobile phone why can t others around the world do the same If 8 million entrepreneurs in China one third of them women can use an e commerce platform to export goods to 120 countries why can t entrepreneurs elsewhere achieve the same global reach And if India can provide unique digital identification to 1 billion people in five years and thereby reduce corruption by billions of dollars why can t other countries replicate its success Indeed what s holding back countries from realizing the profound and transformational effects that digital technologies are supposed to deliver Two main reasons First nearly 60 percent of the world s population are still offline and can t participate in the digital economy in any meaningful way Second and more important the benefits of digital technologies can be offset by growing risks Startups can disrupt incumbents but not when vested interests and regulatory uncertainty obstruct competition and the entry of new firms Employment opportunities may be greater but not when the labor market is polarized The internet can be a platform for universal empowerment but not when it becomes a tool for state control and elite capture The World Development Report 2016 shows that while the digital revolution has forged ahead its analog complements the regulations that promote entry and competition the skills that enable workers to access and then leverage the new economy and the institutions that are accountable to citizens have not kept pace And when these analog complements to digital investments are absent the

development impact can be disappointing What then should countries do They should formulate digital development strategies that are much broader than current information and communication technology ICT strategies They should create a policy and institutional environment for technology that fosters the greatest benefits In short they need to build a strong analog foundation to deliver digital dividends to everyone everywhere

**Security of Tenure and Land Registration in Africa** Carol Wilson Dickerman,1989 [Africa's Green Revolution](#) William G. Moseley,Matthew A. Schnurr,Rachel Bezner-Kerr,2017-10-02 This volume examines the dominant neoliberal agenda for agricultural development and hunger alleviation in Africa The text reviews the history of African agricultural and food security policy in the post colonial period across a range of geographical contexts in order to contextualise the productionist approach embedded in the much heralded New Green Revolution for Africa This strategy supported by a range of international agencies promotes the use of hybrid seeds fertilisers and pesticides to boost crop production This approach is underpinned by a new and unprecedented level of public private partnerships as donors actively work to promote the private sector and build links between African farmers input suppliers agro dealers agro processors and retailers On the consumer end increased supermarket penetration into poorer neighbourhoods is proffered as a solution to urban food insecurity The chapters in this volume complicate understandings of this new approach and raise serious questions about its effectiveness as a strategy for increasing food production and alleviating poverty across the continent This book is based on a special issue of African Geographical Review

*The World Bank Research Program 2004* World Bank,2005 The World Bank s research is intended to address critical issues and problems facing member governments in developing and transition economies How can the governments of the poorest countries generate enough revenue to provide the education and health services essential to reducing poverty and promoting growth and development How can poor countries attract investors to build the infrastructure their economies need How can they develop systems to bring clean water to the 2 billion people without it today How can they train teachers and bring to class the 115 million children who have not yet received any education And how can rich countries be persuaded to lower market barriers helping to reverse the decline in export prices for poor countries that has left them earning less from trade today than in the 1970s These are the types of questions that are addressed in this edition of The World Bank Research Program Abstracts from Current Studies This volume reports on research projects initiated under way or completed from July 2003 through June 2004 It covers 151 research projects on several broad development related issues including agriculture health education environment infrastructure investment climate and more The abstract for each project describes the questions addressed the analytic methods used the findings to date and policy implications

**Advances in Responsible Land Administration** Jaap Zevenbergen,Walter de Vries,Rohan Mark Bennett,2015-08-14 Advances in Responsible Land Administration challenges conventional forms of land administration by introducing alternative approaches and provides the basis for a new land administration theory A compilation of observations about responsible land

administration in East Africa it focuses on a new empirical foundation rather than preexisting ideal Countries at the Crossroads 2007 Sanja Kelly,2008 Countries at the Crossroads is an annual survey of government performance in 30 key countries worldwide that are at a critical crossroads in determining their political future Crossroads provides a unique comparative tool for assessing government performance in the areas of civil liberties rule of law anticorruption and transparency and accountability and public voice Through narratives numerical scores and specific policy recommendations the survey is an indispensable tool for policymakers scholars and the international community The Effects of Agricultural Intensification and Tenure Security on Forest Clearance in Upland Swiddening Communities of the Philippines Ben Sobong Malayang,1990 **Poverty, Household Food Security, and Nutrition in Rural Pakistan** Harold Alderman,Marito Garcia,1993 Based on a survey conducted on 800 households between 1986 and 1989 **Better Policies for Sustainable Development 2016 A New Framework for Policy Coherence** OECD,2016-07-14 This report introduces the Framework for Policy Coherence for Sustainable Development PCSD a screening tool that aims to support governments in designing and implementing coherent policies **Towards Sustainable Global Food Systems** Ruerd Ruben,Jan Verhagen,2019-04-30 One of the major knowledge challenges in the domain of Resilient and Sustainable Food Systems refers to the integration of perspectives on consumption patterns that support public health inclusive value chains and environmentally sustainable food production While there is a long record of the analysis of separate interventions this special issue generates integrated insights provides cross cutting perspectives and outlines practical and policy solutions that address these global challenges The collection of papers promotes the view that sustainable food systems require thorough insights into the structure and dynamics of agri food production systems the drivers for integrating food value chains and markets and key incentives for supporting healthier consumer choices On the production side potential linkages between agricultural commercialization and intensification and their effects for food security and nutritional outcomes are analyzed Value Chains are assessed for their contribution to improving exchange networks and markets for food products that simultaneously support efficiency circularity and responsiveness Individual motives and market structures for food consumption need to be understood in order to be able to outline suitable incentives to enhance healthy dietary choice The contributed papers focus on interfaces between food system activities and processes of adaptive change that are critical for overcoming key constraints and trade offs between sustainable food and healthy diets *Sustainable Poverty Reduction in Less-favoured Areas* Ruerd Ruben,J. Pender,Arie Kuyvenhoven,2007 Printbegr nsninger Der kan printes 10 sider ad gangen og max 40 sider pr session **The Management of Common Property Natural Resources** Daniel W. Bromley,Michael M. Cernea,1989 This popular technical paper is currently in its sixth reprinting 10 97 Many development projects require that people be involuntarily resettled to other locations to live and work Governments need adequate policies to minimize the negative effects of this relocation both on the individuals involved and on the national economy This report presents policy guidelines and

procedures for World Bank financed projects requiring involuntary resettlement Designed for development specialists social anthropologists and sociologists this volume discusses past Bank projects to illuminate the responsibilities of the governments and the needs of resettlers and host populations during resettlement Among the topics addressed are types of involuntary resettlement basic sociological principles in approaching resettlement policy objectives and strategies reconstruction of the resettlers homes production bases and social organizations and the effects of resettlement on the environment Annexes to this report contain technical checklists for preparing and appraising resettlement plans in projects and for monitoring and evaluating resettlement Michael M Cernea has published and edited several books on the sociological aspects of development Among these books is *Putting People First Sociological Variables in Rural Development* which describes culturally sensitive approaches to the preparation planning and implementation of development projects Other books include *Social Organization and Development Anthropology Social Assessments for Better Development Case Studies in Russia and Central Asia and Urban Environment and Population Relocation* *Human Ecology Economics* Roy E. Allen, 2007-10-11 Written by a leading commentator this book helps economists rethink the boundaries and methods of their discipline allowing them to participate more fully in debates over humankind's present problems and the ways that they can be solved [Enhancing Urban Safety and Security](#) Un-Habitat, 2012-08-21 *Enhancing Urban Safety and Security* addresses three major threats to the safety and security of cities crime and violence insecurity of tenure and forced evictions and natural and human made disasters It analyses worldwide trends with respect to each of these threats paying particular attention to their underlying causes and impacts as well as to the good policies and best practices that have been adopted at the city national and international levels in order to address these threats The report adopts a human security perspective concerned with the safety and security of people rather than of states and highlights issues that can be addressed through appropriate urban policy planning design and governance
