

# Top Countries for Safe and Clean Drinking Water

EPI measure unsafe drinking water using the number of age-standardized disability-adjusted life-years lost per 100,000 persons (DALY rate) due to exposure to unsafe drinking water. A score of 100 indicates a country has among the lowest DALY rates in the world, while a score of 0 indicates a country is among the highest. Data for this indicator come from the Institute for Health Metrics & Evaluation's (IHME) Global Burden of Disease (GBD) study.

**State, Market and Society in an Emerging Economy** Quamrul Alam,Rizwan Khair,Asif M. Shahan,2023-07-26 The economic and social development that Bangladesh has achieved in the past two decades has made Bangladesh a development paradox This book tries to explain this paradox through a political economy lens The book explains the linkages between the state changing society and emerging private sector and examines whether the social transformation taking place in Bangladesh has the potential to live up to the expectations of a middle income country The early part of the book unravels the myriad relations between the state society and market to project the aspirations of a newly independent nation It analyzes how political turmoil militarization of politics politicization of institutions reforms initiatives industrial and social development policies and the power nexus influenced the nature of the political economy of Bangladesh The book goes on to examine how domestic appetite for capital and raw materials the digital revolution and the capacity of the local market to absorb expanded economic activities have created an environment that catalyzes innovation and entrepreneurship The book also explains how the country has attempted to transform from an agrarian to a manufacturing based economy with rapid growth in the ready made garment industry pisciculture pharmaceuticals and the ICT sector Bangladesh s journey from an emerging economy towards a developed country would interest those researching on development economics and those in policy making

Clean, Green and Blue Tan Yong Soon,2003-08-01 When Singapore became a sovereign state in 1965 the fledgling nation faced very similar problems as most other developing countries high unemployment low standard of living and poor environmental conditions In a scant four decades it has become the 6th wealthiest country in the world in terms of per capita GDP and has managed its environment so well that it is now considered to be one of the best in the world In this remarkable book Tan Yong Soon authoritatively and objectively analyses how the environmental conditions were radically transformed within this period and the enabling conditions which made this extraordinary transformation possible This book will unquestionably make all Singaporeans proud of their environmental achievements and at the same time enable other countries both developed and developing to learn many lessons from a most remarkable success story This book is a must read for any individual interested in environment development issues Prof Asit K Biswas President Third World Centre for Water Management Mexico and Distinguished Visiting Professor Lee Kuan Yew School of Public Policy Singapore

**Innovative Water Resource Use and Management for Poverty Reduction in Sub-Saharan Africa: An Anthology** Paulos Chanie,2014-04-02 Like in many parts of the world water resources in sub Saharan Africa SSA have been pivotal for human survival economic growth social development and practicing certain religion and cultural ethos However in spite of the intrinsic values of water its use and management in sub Saharan Africa has not been without limitations The demand for water resources is increasing mainly

due to rapid population growth industrialization and urbanization and dealing with water related issues has been complex and challenging for sustainable growth Whilst there are various efforts by national governments non government organizations and communities to effectively and efficiently utilize and manage water resources there are few comprehensive studies in sub Saharan Africa that show the impact of the efforts on poverty reduction Although certain reports indicate that many SSA countries lack clear vision on how water use can be harnessed with pro poor growth and how poor communities can be capacitated to use water for poverty reduction there are little exhaustive studies that clearly show familiar and innovative water use and management interventions followed by communities national governments and other stakeholders and demonstrate the challenges and successes of the same Cognizant of the knowledge gap in 2012 OSSREA launched a research project on ordinary and innovative water use and management patterns and practices in SSA with a view to generate new knowledge on unexploited opportunities that could enhance the contribution of water resources to poverty reduction This anthology documents various issues including water use and management in agriculture especially in irrigation projects in Ethiopia Kenya Uganda and Zimbabwe water harvesting in Kenya and Uganda the role of local water use institutions in Ethiopia and water source maintenance and protection in Uganda

**Natural Resource Degradation and Human-Nature Wellbeing** Rashed Al Mahmud Titumir,Tanjila Afrin,Mohammad Saeed Islam,2023-03-09 The book addresses the gaps in the body of knowledge from two grounds Firstly it adds value through explaining the dynamics of natural resource governance by focusing on the particular arenas of biodiversity resources water resources and climate change in developing country context Secondly it critically scrutinizes the market centric perspectives on one hand and combines political economy questions that are generally overlooked in discussions of current resource governance framework on the other It develops a new framework to examine the reasons behind the degradations of natural resources to offer sustainable solutions to the problems It shows that the natural resources have been exploited beyond sustainable limits due to the structural rigidities embedded in and reproduced by fragile institutions and unequal power sharing arrangements under the market centric economic system The book formulates a new understanding of sustainability in case of usage and management of natural resources by incorporating the idea of human sociality It highlights the importance of the well being of nature and human beings must go side by side one without the other is not a sustainable option The book contains key learnings for scholars and researchers working in the field of development studies who wish to gain a deeper understanding on the sustainable natural resource governance specifically in the contexts of developing countries For policymakers and policy advocates the book serves as the groundwork on policies regarding biodiversity resources water resources and climate change specific to the context of developing countries providing more relevant contents in terms of laying out justification for policy objectives
