Ice Ages, Climate Dynamics and Biotic Events: The Late Pennsylvanian World S.G. Lucas,W.A. DiMichele,S. Opluštil,X. Wang,2023-06-19 The Late Pennsylvanian was a time of ice ages and associated climate dynamics A major reduction in Gondwana ice volume was followed by a prolonged period of relative global warmth culminating in the last great ice age of the late Paleozoic It also was a major turning point in the evolution of life on land when the coal forests of the Middle Pennsylvanian gave way to new kinds of Late Pennsylvanian wetland vegetation and new kinds of animals appeared Changes in the terrestrial biota began during the Middle Pennsylvanian accelerating and proceeding in a spatially complex manner throughout the Late Pennsylvanian The Late Pennsylvanian is thus a laboratory for studying environmental changes in a glacial world and for assessing coeval biotic changes in part to establish the possible links between the two No book has been dedicated to this time interval so this volume fills a gap in our understanding of a dynamic Late Pennsylvanian world that is much like the late Cenozoic world

The Promise of Women's Boxing Malissa Smith,2024-06-04 A well

researched and vital contribution to sports collections Booklist and a must read book on the rise of elite women's boxing On April 30th 2022 the first boxing super fight of the era headlined by two women and fought at Madison Square Garden lived up to its hype and then some The two contestants fought the battle of their lives in front of a sold out crowd and garnered 1.5 million views through online streaming It was the culmination of a long three centuries arc of women's boxing history a history fraught with highs and lows but always imbued with the heart and passion of the women who fought In *The Promise of Women's Boxing: A Momentous New Era for the Sweet Science* Malissa Smith details the exciting period from the 2012 Olympics through the true million dollar baby women's super fights of 2022 and beyond Rich in content the stories that emerge focus on boxing stars new and old important battles and the challenges women still face in boxing Smith examines the development of the sport on a global basis the transition of amateur boxers to the pros the impact of online streamlining on the sport the challenges boxing has faced from MMA and the unprecedented gains women's boxing has made in the era of the super fight with extraordinary seven figure opportunities for elite female stars Featuring the stories of women's boxing icons Katie Taylor Amanda Serrano Savannah Marshall and more and with a foreword by two time Olympic gold medalist and three time undisputed champion Claressa Shields *The Promise of Women's Boxing* offers unprecedented insight into the incredible growth of the sport and the women who have fought in and out of the ring to make it all possible *The Rise and Fall of OPEC in the Twentieth Century* Giuliano Garavini, 2019-07-25 The Organization of the Petroleum Exporting Countries OPEC is one of the most recognizable acronyms among international organizations It is mainly associated with the oil shock of 1973 when prices of petroleum quadrupled and industrialized countries and consumers were forced to face the limits of their development model This is the first history of OPEC and of its members written by a professional historian It carries the reader from the formation of the first petrostate in the world Venezuela in the late 1920s to the global ascent of petrostates and OPEC during the 1970s to their crisis in the late 1980s and early 1990s Formed in 1960 OPEC was the first international organization of the Global South It was perceived as acting as the economic spearhead of the Global South and acquired a role that went far beyond the realm of oil politics Petrostates such as Venezuela Nigeria Algeria Saudi Arabia Iraq and Iran were and continue to be key regional actors and their enduring cooperation defying wide political and cultural differences and even wars speaks to the centrality of natural resources in the history of the twentieth century and to the underlying conflict between producers and consumers of these natural resources **Democratization from Above** Anjali Thomas Bohlken, 2016-01-11 *Democratization from Above* seeks to explain why some national and state governments in the developing world introduce reforms to make local governance more democratic while others neglect or actively undermine democracy at local levels of government The study challenges conventional wisdom that local democratization is implemented as a means of granting more autonomy to local actors Instead Anjali Thomas Bohlken argues that local democratization offers higher level government elites who lack control over party organizational networks an alternative

means of increasing the effectiveness of local intermediaries on whom these elites rely to mobilize political support The book starts with a focus on India and uses original data and a combination of qualitative and quantitative evidence to show support for the argument The study then relies on an original cross national dataset to show how the argument helps explain the variation in the implementation of local democratization reforms across the developing world

The Case for Business in Developing Economies Ann Bernstein, 2012-10-03 Business is increasingly being called upon to demonstrate what more it does for society In a climate in which companies are frequently painted as social outlaws who need fundamentally to change their ways this determined if ill founded attack has been met for the most part by appeasement in corporate circles This acquiescence has given rise to the burgeoning corporate social responsibility industry Why is business going along with this The current conversation about business and society is dominated by the perspectives and interests of those who live in rich western countries Many activists analysts and others do not grasp the realities of poverty and the hard choices of development outside the industrialised world As a result the debate about business responsibility and corporate involvement in development is distorted with few voices from developing countries being heard and the positive contribution of just doing business almost completely unacknowledged In this book Ann Bernstein argues that a new approach and a new discourse are required to cut through an increasingly flawed conversation with potentially dangerous consequences for the poor and for developing countries in particular Informed by many years of living working and championing the role of business in growth and development in a middle income developing country Bernstein urges business not to let the attacks stand unchallenged It must find the confidence and strategic vision to stop apologising develop its own public agenda and start propagating the phenomenal benefits of competitive capitalism for the less developed countries of the world

Dingo Bold Rowena Lennox, 2021-01-01 Dingo Bold is a thought provoking exploration of the relationship between people and dingoes At its heart is Rowena Lennox s encounter with a dingo on the beach on K gari Fraser Island a young male she nicknames Bold Struck by this experience and by the intense often polarised opinions expressed in public conversations about dingo conservation and control she sets out to understand the complex relationship between humans and dingoes Weaving together ecological data interviews with people connected personally and professionally with K gari s dingoes and Lennox s expansive reading of literary historical and scientific accounts Dingo Bold considers what we know about the history of relations between dingoes and humans and what preconceptions shape our attitudes today Do we see dingoes as native wildlife or feral dogs Wild or domesticated animals A tourist attraction or a threat And how do our answers to these questions shape our interactions with them Dingo Bold is both a moving memoir of love and loss through Lennox s observations of the natural world and an important contribution to wider conversations about conservation and animal welfare Combining natural history Indigenous culture folklore memoir and environmental politics this is an elegantly written and affectionate tribute to Australia s most maligned and least understood native animal Jacqueline Kent Fuelled by empathy curiosity and passion and informed by

research data and observation this moving and compelling book speaks to the heart and to the head Rowena Lennox poses questions about our relationship with dingoes and our role in the natural world that are as bold and lively as her subject Debra Adelaide *World Ocean Assessment* Alan Simcock, 2017-04-17 This United Nations report examines the current state of knowledge of the world's oceans for policymakers and provides a reference for marine science courses *Race Decoded* Catherine Bliss, 2012-05-23 In 2000 with the success of the Human Genome Project scientists declared the death of race in biology and medicine But within five years many of these same scientists had reversed course and embarked upon a new hunt for the biological meaning of race Drawing on personal interviews and life stories *Race Decoded* takes us into the world of elite genome scientists including Francis Collins director of the NIH Craig Venter the first person to create a synthetic genome and Spencer Wells National Geographic Society explorer in residence among others to show how and why they are formulating new ways of thinking about race In this original exploration Catherine Bliss reveals a paradigm shift both at the level of science and society from colorblindness to racial consciousness Scientists have been fighting older understandings of race in biology while simultaneously promoting a new grand scale program of minority inclusion In selecting research topics or considering research design scientists routinely draw upon personal experience of race to push the public to think about race as a biosocial entity and even those of the most privileged racial and social backgrounds incorporate identity politics in the scientific process Though individual scientists may view their positions differently whether as a black civil rights activist or a white bench scientist all stakeholders in the scientific debates are drawing on memories of racial discrimination to fashion a science based activism to fight for social justice *Global Modernity and Social Contestation* Breno M. Bringel, Jose Mauricio Domingues, 2015-01-19 A new generation of truly global sociology grappling with the contemporary world through the lenses of critique contestation and social movements A significant contribution G ran Therborn University of Cambridge This is a truly global and politically challenging book bringing together top level researchers and sharply tackling its themes People from every corner of the planet and from all walks in the social sciences will surely profit from reading it Carolina Mera University of Buenos Aires How can we link contemporary social processes which have typically been theorized in terms of the concept of modernity with contemporary social movements conflicts and mobilizations which aim at social change This text links the social theory of modernity to critical theory and to recent class and citizenship politics as well as to identity politics uses concrete social processes to illustrate theoretical discussion with relevant empirical studies and applies theoretical analysis to different interactions tensions and possibilities to provide an integrated understanding of global modernity and social contestation includes contributions from distinguished international scholars working in sociological theory and modernity as well as social movement studies and political contestation with a strong emphasis on global issues This is a key resource for research in both social theory and the sociology of modernity as well as social movements and social contestation and readers interested in globalization and global studies *The*
