World History 2 Chapter 12 Section:

The Jiankang Empire in Chinese and World History Andrew Chittick, 2020-02-28 This work offers a sweeping re-assessment of the Jiankang Empire 3rd 6th centuries CE known as the Chinese Southern Dynasties It shows how although one of the medieval world's largest empires Jiankang has been rendered politically invisible by the standard narrative of Chinese nationalist history and proposes a new framework and terminology for writing about medieval East Asia The book pays particular attention to the problem of ethnic identification rejecting the idea of ethnic Chinese and delineating several other more useful ethnographic categories using case studies in agriculture foodways and vernacular languages The most important the Wuren of the lower Yangzi region were believed to be inherently different from the peoples of the Central Plains and the rest of the book addresses the extent of their ethnogenesis in the medieval era It assesses the political culture of the Jiankang Empire emphasizing military strategy institutional cultures and political economy showing how it differed from Central Plains based empires while having significant similarities to Southeast Asian regimes It then explores how the Jiankang monarchs deployed three distinct repertoires of political legitimation vernacular Sinitic universalist and Buddhist arguing that the Sinitic repertoire was largely eclipsed in the sixth century rendering the regime yet more similar to neighboring South Seas states The conclusion points out how the research re-orientes our understanding of acculturation and ethnic identification in medieval East Asia generates new insights into the Tang Song transition period and offers new avenues of comparison with Southeast Asian and medieval European history

Globalisation and the Western Legal Tradition David B. Goldman, 2008-02-07 What can globalisation teach us about law in the Western tradition This important new work seeks to explore that question by analysing key ideas and events in the Western legal tradition including the Papal Revolution the Protestant Reformations and the Enlightenment Addressing the role of law morality and politics it looks at the creation of orders which offer the possibility for global harmony in particular the United Nations and the European Union It also considers the unification of international commercial laws in the attempt to understand Western law in a time of accelerating cultural interconnections The title will appeal to scholars of legal history and globalisation as well as students of jurisprudence and all those trying to understand globalisation and the Western dynamic of law and authority

The Life of Henry More Richard Ward, 2000

The Cambridge Platonist Henry More 1614-1687 was a dominant figure on the 17th century intellectual scene His life spanned both the political revolutions of the English Civil War and its aftermath and the intellectual revolution in 17th century science and philosophy More was highly regarded in his own day as a metaphysician although the combination of receptivity to the new such as his admiration of Galileo Descartes and Boyle and defence of traditional thinking notably his belief in witchcraft makes him a difficult figure

to assess today The heterodoxy of his theological views notwithstanding More was an important spokesman for moderation within the Anglican Church after the Restoration and a key figure in the Latitudinarian movement *Handbook of Ancient Afro-Eurasian Economies* Sitta von Reden, 2021-12-20 The second volume of the Handbook describes different extractive economies in the world regions that have been outlined in the first volume A wide range of economic actors from kings and armies to cities and producers are discussed within different imperial settings as well as the tools which enabled and constrained economic outcomes A central focus are nodes of consumption that are visible in the archaeological and textual records of royal capitals cities religious centers and armies that were stationed in some cases permanently in imperial frontier zones Complementary to the multipolar concentrations of consumption are the fiscal tributary structures of the empires vis vis other institutions that had the capacity to extract mobilize and concentrate resources and wealth Larger volumes of state issued coinage in various metals show the new role of coinage in taxation local economic activities and social practices even where textual evidence is absent Given the overwhelming importance of agriculture the volume also analyses forms of agrarian development especially around cities and in imperial frontier zones Special consideration is given to road and water management systems for which there is now sufficient archaeological and documentary evidence to enable cross disciplinary comparative research
