WHERE IT ALL BEGAN

When we look up into the sky, we can see an almost endless number of stars. Many of these stars are the center of their own solar systems. Millions of those stars together form the Milky Way which is our galaxy. Near one of the edges of the Milky Way is our solar system, consisting of a sun and its planets. The third planet from the sun is "Earth." It has five oceans and seven continents.

The region where Europe, Asia, and Africa meet is known as the "Fertile Crescent." Our timeline begins there about 4,000 BC when scientists agree that a cataclysmic event occurred (like a worldwide flood) that forced mankind to "start over." Scholars agree that the Fertile Crescent is where recorded or written history on Earth began; and in approximately 2,500 BC, some interesting things were happening there.

The Fertile Crescent was made up of Egypt, Palestine, Syria, and Mesopotamia ("The Land Between

Sacred Kingship in World History A. Azfar Moin, Alan Strathern, 2022-05-10 Sacred kingship has been the core political form in small scale societies and in vast empires for much of world history This collaborative and interdisciplinary book recasts the relationship between religion and politics by exploring this institution in long term and global comparative perspective Editors A Azfar Moin and Alan Strathern present a theoretical framework for understanding sacred kingship which leading scholars reflect on and respond to in a series of essays They distinguish between two separate but complementary religious tendencies immanentism and transcendentalism which mold kings into divinized or righteous rulers respectively Whereas immanence demands priestly and cosmic rites from kings to sustain the flourishing of life transcendence turns the focus to salvation and subordinates rulers to higher ethical objectives Secular modernity does not end the struggle between immanence and transcendence flourishing and righteousness but only displaces it from kings onto nations and individuals After an essay by Marshall Sahlins that ranges from the Pacific to the Arctic the book contains chapters on religion and kingship in settings as far flung as ancient Egypt classical Greece medieval Islam Mughal India modern European drama and ISIS Sacred Kingship in World History sheds new light on how religion has constructed rulership with implications spanning global history religious studies political theory and anthropology

Science and Technology in World History, Volume 4 David Deming, 2016-04-05 The history of science is a story of human discovery intertwined with religion philosophy economics and technology The fourth in a series this book covers the beginnings of the modern world when 16th century Europeans began to realize that their scientific achievements surpassed those of the Greeks and Romans Western Civilization organized itself around the idea that human technological and moral progress was achievable and desirable Science emerged in 17th century Europe as scholars subordinated reason to empiricism Inspired by the example of physics men like Robert Boyle began the process of changing alchemy into the exact science of chemistry During the 18th century European society became more secular and tolerant Philosophers and economists developed many of the ideas underpinning modern social theories and economic policies As the Industrial Revolution fundamentally transformed the world by increasing productivity people became more affluent better educated and urbanized and the world entered an era of unprecedented prosperity and progress

Summary Reframing India in World History Lavanya Vemsani, 2024-12-13 Reframing India in World History breaks the stereotypical portrayal of India based on misconstrued historical theories. Prevalent constructions of Indian history are tinged with colonial historical frameworks and presentation. It is important to understand India for what it is in the past based on self-determined frameworks derived from Indian history to reclaim India's place in the world history. Based on new evidence-based research, Lavanya Vemsani explores patterns of civilization that are indigenous to India to investigate its history from the beginning to the present. This book covers topics central to a comprehensive understanding of the nation, including a discussion of long-held cultural notions, civilization continuity, and the historical crises deriving from conquests and colonization.
