Haladyna,Michael C. Rodriguez,2013-07-18 Since test items are the building blocks of any test learning how to develop and validate test items has always been critical to the teaching learning process As they grow in importance and use testing programs increasingly supplement the use of selected response multiple choice items with constructed response formats This trend is expected to continue As a result a new item writing book is needed one that provides comprehensive coverage of both types of items and of the validity theory underlying them This book is an outgrowth of the author s previous book *Developing and Validating Multiple Choice Test Items* 3e Haladyna 2004 That book achieved distinction as the leading source of guidance on creating and validating selected response test items Like its predecessor the content of this new book is based on both an extensive review of the literature and on its author s long experience in the testing field It is very timely in this era of burgeoning testing programs especially when these items are delivered in a computer based environment Key features include Comprehensive and Flexible No other book so thoroughly covers the field of test item development and its various applications Focus on Validity Validity the most important consideration in testing is stressed throughout and is based on the Standards for Educational and Psychological Testing currently under revision by AERA APA and NCME Illustrative Examples The book presents various selected and constructed response formats and uses many examples to illustrate correct and incorrect ways of writing items Strategies for training item writers and developing large numbers of items using algorithms and other item generating methods are also presented Based on Theory and Research A comprehensive review and synthesis of existing research runs throughout the book and complements the expertise of its authors **Lessons for the Social Studies Classroom** M. Lazarus, S. Cohen, K. Lambert, R. E,2013-03-12 The idea for this book came while I was observing a student teacher and a master teacher I realized that most student teachers while in training do not have the opportunity to think creatively about their lessons I also noticed that teachers new to the fi eld of teaching suffer the same fate they are too

busy trying to survive the day and are not sure how to plan and organize their teaching Lesson plans are one of the most important tools for a teacher and more important for the novice teacher I believe that during student teaching or during their undergraduate years if students were equipped with this book their first year teaching will not look so first year Imagine an undergraduate class filled with soon to be Social Studies teachers discussing these selected lesson plans improving upon them and making them their own Most first year teachers over teach or under teach and both types still miss the marks on the standardized test These lesson plans will give the new teacher a place to begin

Teaching Interculturality 'Otherwise' Fred Dervin, Mei Yuan, Sude, 2022-12-14 This edited volume focuses on the thorny and somewhat controversial issue of teaching and learning interculturality in a way that considers the notion from critical and reflexive perspectives when introduced to students Comprised of three parts the book discusses the nuts and bolts of teaching interculturality considers changes in the teaching of interculturality and provides pedagogical insights into interculturalising the notion It studies both teaching implicitly about interculturality and how to incorporate interculturality into teaching practices or into an institution By sharing varied cases and theoretical reflections on the topic the editors and contributors from different parts of the world

aim to stimulate more initiatives to enrich the field instead of delimiting it especially in complement to and beyond the West or Global North and also to build up further reflexivity in the way readers engage with interculturality in education This will be a must read for teachers and researchers of intercultural communication education at different educational levels as well as anyone interested in scholarship on education for interculturality Chapter 3 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons 4.0 license

The Cold War in the Classroom Barbara Christophe, Peter Gautschi, Robert Thorp, 2019-10-23 This book is open access under a CC BY 4.0 license This book explores how the socially disputed period of the Cold War is remembered in today's history classroom Applying a diverse set of methodological strategies the authors map the dividing lines in and between memory cultures across the globe paying special attention to the impact the crisis driven age of our present has on images of the past Authors analysing educational media point to ambivalence vagueness and contradictions in textbook narratives understood to be echoes of societal and academic controversies Others focus on teachers and the history classroom showing how unresolved political issues create tensions in history education They render visible how teachers struggle to handle these challenges by pretending that what they do is just history The contributions to this book unveil how teachers backgrounding the political inherent in all memory practices often nourish the illusion that the history in which they are engaged is all about addressing the past with a reflexive and disciplined approach

The Zero Marginal Cost Society Jeremy Rifkin, 2014-04-01 The New York Times bestselling author describes how current trends will create an era when anything and everything is available for almost nothing In *The Zero Marginal Cost Society* New York Times bestselling author Jeremy Rifkin uncovers a paradox at the heart of capitalism that has propelled it to greatness but is now taking it to its death the inherent entrepreneurial dynamism of competitive markets that drives productivity up and marginal costs down enabling businesses to reduce the price of their goods and services in order to win over consumers and market share Marginal cost is the cost of producing additional units of a good or service if fixed costs are not counted While economists have always welcomed a reduction in marginal cost they never anticipated the possibility of a technological revolution that might bring marginal costs to near zero making goods and services priceless nearly free and abundant and no longer subject to market forces Now a formidable new technology infrastructure the Internet of things IoT is emerging with the potential of pushing large segments of economic life to near zero marginal cost in the years ahead Rifkin describes how the Communication Internet is converging with an Energy Internet and Logistics Internet to create a new technology platform that connects all There are billions of sensors feeding Big Data into an IoT global neural network Prosumers can connect to the network and use Big Data analytics and algorithms to accelerate efficiency dramatically increase productivity and lower the marginal cost of producing and sharing a wide range of products and services to near zero just like they now do with information goods The plummeting of marginal costs is spawning a hybrid economy part

capitalist market and part Collaborative Commons with far reaching implications for society according to Rifkin Hundreds of millions of people are already transferring parts of their economic lives to the global Collaborative Commons Prosumers are plugging into the IoT and making and sharing their own information entertainment green energy and 3D printed products at near zero marginal cost Students are enrolling in free massive open online courses MOOCs that operate at near zero marginal cost Social entrepreneurs are even bypassing the banking establishment and using crowdfunding to finance startup businesses as well as creating alternative currencies in the fledgling sharing economy In this new world social capital is as important as financial capital access trumps ownership sustainability supersedes consumerism cooperation ousts competition and exchange value in the capitalist marketplace is increasingly replaced by sharable value on the Collaborative Commons Rifkin concludes that capitalism will remain with us albeit in an increasingly streamlined role primarily as an aggregator of network services and solutions allowing it to flourish as a powerful niche player in the coming era We are however says Rifkin entering a world beyond markets where we are learning how to live together in an increasingly interdependent global Collaborative Commons

Discipline Problems Tadashi Dozono,2024-05-07 Angel a Black tenth grader at a New York City public school self identifies as a nerd and likes to learn

But she's troubled that her history classes leave out events like the genocide and dispossession of Indigenous people in the Americas presenting a sugar coated image of the United States that is at odds with her everyday experience The history I learned in school is simpler she says The world I live in is a lot more complex Angel like every student interviewed in Discipline Problems has been identified by teachers as a troublemaker a student whose behavior disrupts classroom norms and interferes with instruction But her critiques of the curriculum she's taught speak to her curiosity and insight crucial foundations for understanding history Like many students who have been marginalized by systemic racism in American schools she exposes the shortcomings of her classrooms academic environments by challenging both the content and the methods of her education All too often these challenges are framed as troublemaking and the students are disciplined for acting out instead of being rewarded for their intellectual engagement Tadashi Dozono a professor of education and former high school social studies teacher takes seriously the often overlooked critiques that students of color who get labeled as troublemakers direct toward their high school history curriculum He reinterprets troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students Discipline Problems reveals how students of color seek out alternate avenues for understanding their world and imagines a pedagogy that champions the curiosity intellect and knowledge of marginalized learners
