The Trouble with Textbooks Gary A. Tobin,Dennis R. Ybarra,2008-07-31 School textbooks in Iran Saudi Arabia Egypt and elsewhere in the Arab and Muslim worlds are filled with anti Western and anti Israel propaganda Most readers will be shocked to discover that history and geography textbooks widely used in America s elementary and secondary classrooms contain some of the very same inaccuracies about Jews Judaism and Israel Did you know that there is no record of any important Jewish contribution to the sciences World Civilizations Thomson Wadsworth Or that Christianity was started by a young Palestinian named Jesus The World Scott Foresman Pearson Supplemental materials and other classroom influences are even worse The Trouble with Textbooks exposes the poor scholarship and untruths in textbooks about Jews and Israel The problems uncovered in this ground breaking analysis are instructive and illustrate the need for reform in the way

textbooks are developed written marketed and distributed Substitute another area how we teach American history Western civilization or comparative religion and we have another equally intriguing case study The Trouble with Textbooks shows what can go terribly wrong in discussing religion geography culture or history and in this case all of them The Trouble with Textbooks tells a cautionary tale for all readers whatever their background of how textbooks that Americans depend on to infuse young people with the values for good citizenship and to help acculturate students into the multicultural salad that is American life instead disparage some groups and teach historical distortions With millions of young people using these textbooks each year the denigration of some should be a concern for all

A People's Curriculum for the Earth Bill Bigelow, Tim Swinehart, 2014-11-14 A People's Curriculum for the Earth is a collection of articles role plays simulations stories poems and graphics to help breathe life into teaching about the environmental crisis The book features some of the best articles from Rethinking Schools magazine alongside classroom friendly readings on climate change energy water food and pollution as well as on people who are working to make things better A People's Curriculum for the Earth has the breadth and depth of Rethinking Globalization Teaching for Justice in an Unjust World one of the most popular books we've published At a time when it's becoming increasingly obvious that life on Earth is at risk here is a resource that helps students see what's wrong and imagine solutions Praise for A People's Curriculum for the Earth To really confront the climate crisis we need to think differently build differently and teach differently A People's Curriculum for the Earth is an educator's toolkit for our times Naomi Klein author of The Shock Doctrine and This Changes Everything Capitalism vs the Climate This volume is a marvelous example of justice in ALL facets of our lives civil social educational economic and yes environmental Bravo to the Rethinking Schools team for pulling this collection together and making us think more holistically about what we mean when we talk about justice Gloria Ladson Billings Kellner Family Chair in Urban Education University of Wisconsin Madison Bigelow and Swinehart have created a critical resource for today's young people about humanity's responsibility for the Earth This book can engender the shift in perspective so needed at this point on the clock of the universe Gregory Smith Professor of Education Lewis Clark College co author with David Sobel of Place and Community based Education in Schools

The Patchwork of World History in Texas High Schools Stephen Jackson, 2022-11-30 This book traces the historical development of the World History course as it has been taught in high school classrooms in Texas a populous and nationally influential state over the last hundred years Arguing that the course is a result of a patchwork of competing groups and ideas that have intersected over the past century with each new framework patched over but never completely erased or replaced the author crucially examines themes of imperialism Eurocentrism and nationalism in both textbooks and the curriculum more broadly The first part of the book presents an overview of the World History course supported by numerical analysis of textbook content and public documents while the second focuses on the depiction of non Western peoples and persistent narratives of Eurocentrism and nationalism It ultimately offers that a more global accurate and balanced curriculum is

possible despite the tension between the ideas of professional world historians who often de center the nation state in their quest for a truly global approach to the subject and the historical core rationale of state sponsored education in the United States to produce loyal citizens Offering a new conceptual understanding of how colonial themes in World History curriculum have been dealt with in the past and are now engaged with in contemporary times it provides essential context for scholars and educators with interests in the history of education curriculum studies and the teaching of World History in the United States World History Roger B. The Cold War in the Classroom Barbara Christophe,Peter Gautschi,Robert Thorp,2019-10-23 This book is open access under a CC BY 4 0 license This book explores how the socially disputed period of the Cold War is remembered in today s history classroom Applying a diverse set of methodological strategies the authors map the dividing lines in and between memory cultures across the globe paying special attention to the impact the crisis driven age of our present has on images of the past Authors analysing educational media point to ambivalence vagueness and contradictions in textbook narratives understood to be echoes of societal and academic controversies Others focus on teachers and the history classroom showing how unresolved political issues create tensions in history education They render visible how teachers struggle to handle these challenges by pretending that what they do is just history The contributions to this book unveil how teachers backgrounding the political inherent in all memory practices often nourish the illusion that the history in which they are engaged is all about addressing the past with a reflexive and disciplined approach
