Critical Thinking Richard Paul, Linda Elder, 2021-12-15. Written by international authorities on critical thinking, this book details an integrated universal concept of critical thinking that is both substantive and applicable to any and every situation in which human thinking is necessary. It provides students with the basic intellectual tools needed for life-long learning, helping them understand the mind and how its three functions—thinking, feeling, and motivating—influence one another. Critical Thinking fosters the development of fair-minded critical thinking and explores essential intellectual standards of clarity, precision, accuracy, logicalness, significance, depth, breadth, and fairness, the importance of skilled and deep questioning, and how to take thinking apart in order to find problems in thinking and then improve thinking. The fourth edition features Think for Yourself activities, Glossary of critical thinking terms, New chapter on argumentation, New chapters on critical thinking in the professions including critique of disciplines, Discussion of the Internet's effects on our lives, Updated discussions of media bias and political propaganda as well as egocentric and sociocentric thought as barriers to critical thinking. The Foundation for Critical Thinking continually offers new supplementary resources on its website CriticalThinking.org and in its online critical thinking community CriticalThinkingCommunity.org.
