Weinberg, 1986 A documentary history with brief narrative introductions illustrating the evolution of civil affairs policy and practice in the Mediterranean and European theaters Most important of all in World War II soldiers became governors in a much broader sense than ever before so much more than was foreseen that the Army's specialized training proved scant preparation for perhaps the most important phase of their role They became not merely the administrators of civilian life for the Army's immediate needs but at the same time the executors and at times even by force of circumstances the proposers of national and international political policy This broader role arose from the fact that in World War II the Allies strove to realize from the very beginning of occupation political aims that had usually not been implemented during war or if during war at all not until active hostilities had ended Thus in enemy countries civil affairs officials were immediately to extirpate totalitarian governmental and economic systems in liberated countries they were as soon as possible to aid in restoring indigenous systems and authorities and in both types of countries they were to make an all out effort to effect gradual transition toward the envisaged postwar national and international order

Petit,2010 Should immigrants have to pass a literacy test in order to enter the United States Progressive Era Americans debated this question for more than twenty years and by the time the literacy test became law in 1917 the debate had transformed the way Americans understood immigration and created the logic that shaped immigration restriction policies throughout the twentieth century Jeanne Petit argues that the literacy test debate was about much more than reading ability or the virtues of education It also tapped into broader concerns about the relationship between gender sexuality race and American national identity The congressmen reformers journalists and pundits who supported the literacy test hoped to stem the tide of southern and eastern European immigration To make their case these restrictionists portrayed illiterate immigrant men as dissipated dependent paupers immigrant women as brood mares who bore too many children and both as a eugenic threat to the nation s racial stock Opponents of the literacy test argued that the new immigrants were muscular virile workers and nurturing virtuous mothers who would strengthen the race and nation

Moreover the debaters did not simply battle about what social reformer Grace Abbott called the sort of men and women we want They also defined as normative the men and women they were unquestionably white unquestionably American and unquestionably fit to shape the nation s future Jeanne D Petit is Associate Professor of History at Hope College **The Spectator** ,1925
