Pity and Identity in the Age of Shakespeare Toria Johnson,2021 Exploring a wide range of material including dramatic works medieval morality drama and lyric poetry this book argues for the central significance of literary material to the history of emotions Early modern English writing about pity evidences a social culture built specifically around emotion one at least partially defined by worries about who deserves compassion and what it might cost an individual to offer it Pity and Identity in the Age of Shakespeare positions early modern England as a place that sustains messy and contradictory views about pity all at once bringing together attraction fear anxiety positivity and condemnation to paint a picture of an emotion that is simultaneously unstable and essential dangerous and vital deceptive and seductive The impact of this emotional burden on individual subjects played a major role in early modern English identity formation centrally shaping the ways in which people thought about themselves and their communities Taking in a wide range of material including dramatic works by William Shakespeare Thomas Heywood Ben Jonson Thomas Middleton and William Rowley medieval morality drama and lyric poetry by Philip Sidney Thomas Wyatt Samuel Daniel Thomas Lodge Barnabe Barnes George Rodney and Frances Howard this book argues for the central significance of literary material to the broader history of emotions a field which has thus far remained largely the concern of social and cultural historians Pity and Identity in the Age of Shakespeare shows that both literary materials and literary criticism can offer new insights into the experience and expression of emotional humanity ENC Focus ,2000

The Conflict in Syria and the Failure of International Law to Protect People Globally Jeremy Julian Sarkin,2021-11-28 This

book explores through the lens of the conflict in Syria why international law and the United Nations have failed to halt conflict and massive human rights violations in many places around the world which has allowed tens of millions of people to be killed and hundreds of millions more to be harmed The work presents a critical socio legal analysis of the failures of international law and the United Nations UN to deal with mass atrocities and conflict It argues that international law in the way it is set up and operates falls short in dealing with these issues in many respects The argument is that international law is state centred rather than victim friendly is to some extent outdated is vague and often difficult to understand and therefore at times hard to apply While various accountability processes have come to the fore recently processes do not exist to assist individual victims while the conflict occurs or the abuses are being perpetrated The book focuses on the problems of international law and the UN and in the context of the many enforced disappearances and arbitrary detentions in Syria why nothing has been done to deal with a rogue state that has regularly violated international law It examines why the responsibility to protect R2P has not been applied and why it ought to be used generally and in Syria It uses the Syrian context to evaluate the weaknesses of the system and why reform is needed It examines the UN institutional mechanisms the role they play and why a civilian protection system is needed It examines what mechanism ought to be set up to deal with the possible one million people who have been disappeared and detained in Syria The book will be a valuable resource for students academics and policy makers working in the areas of public international law international human rights law political science and peace and security studies

Soviet Constitutional Crisis Robert S. Sharlet, 1992 Moving from the adoption of the post Stalin Constitution of 1977 through its subsequent implementation under Brezhnev Andropov and Chernenko to the radical legal restructuring of the Gorbachev years Robert Sharlet traces the gradual evolution of a nascent constitutionalism in the erstwhile USSR Sharlet a noted authority on Soviet law and constitutional development demonstrates the gradual transformation of law from an instrument of Communist Party rule into the new rules of the game for nonauthoritarian political development In effect he argues one of Gorbachev s most durable achievements may be his redefinition of Soviet

writing students develop genre awareness and flexibility while forging a personal identity *Race, Ethnicity, and the Participation Gap* Juliet Pietsch, 2018-11-21 *Race Ethnicity and the Participation Gap* begins with the argument that political institutions in settler and culturally diverse societies such as Australia the United States and Canada should mirror their culturally diverse populations Compared to the United States and Canada however Australia has very low rates of immigrant and ethnic minority political representation in the Commonwealth Parliament particularly in the House of Representatives The overall existence of racial hierarchies within formal political institutions represents an inconsistency with the democratic ideals of representation and accountability in pluralist societies Drawing on findings from the United States Canada and Australia Juliet Pietsch reveals that the lack of political representation in Australia is significant when compared to the United States and Canada revealing a serious democratic deficit Her book is devoted to exploring this central puzzle why is it that despite having a similar history to other settler countries Australia shows such comparatively low rates of political participation among its immigrant and ethnic minority populations from non British and European backgrounds In addressing this crucial question *Race Ethnicity and the Participation Gap* examines the impact of Australia's alternative path on the political representation of immigrants and ethnic minorities
