

DEAR PARENT,

We all want our children to be prepared for success in the real world. Yet even though 94% of parents say they want their kids to go to college, today only 29% of Illinois high school students will ever earn a 2- or 4-year degree. Also, jobs in Illinois are going unfilled because employers can't find workers with the skills they need in a modern economy.

Our children must graduate with the skills they need to be successful. That's why 45 states, including Illinois, are raising the bar for kids by adopting the Common Core State Standards.

The Common Core focuses on **REAL LEARNING FOR REAL LIFE**. These new learning standards are designed to create clear, consistent expectations for what all students should learn to prepare them for college and career.

THE NEW COMMON CORE STANDARDS ARE:

Math and English Language Arts learning standards for kindergarten to 12th grade, with more subjects in development

Higher, clearer, deeper and based on what students must learn to succeed in college and modern careers

Creating the same expectations for all students so families can understand exactly what every student should be learning

Emphasizing skills students will need for the modern workplace: collaboration, critical thinking, communication and creativity

Built upon strengths and lessons from the highest-performing states and countries

book exposes a disturbing misuse of the scientific method to advance policies and agendas that are in fact detrimental to both science and education The author a physics professor examines two related trends in education the practice of data driven reform and the disparaging of the traditional liberal arts in favor of programs with a heavy emphasis on science and technology Many of the reforms being foisted on educators have more in common with pseudo science than real science The reduction of education to a commodity and the shilling of science as a means to enhance corporate profits lead to an impoverished and stunted understanding of science in particular and of education in general How is it possible for schools

with all students learning at grade level to be rated as failing teachers to be rated as ineffective after all their students meet their learning outcomes rising grade school math standards to result in more college students needing remedial math politicians to disparage scientists and their results but argue that more students should study science These bizarre outcomes have happened and are the result of an education system that misuses and misrepresents math and science in the classroom and in crafting education policies This book exposes the flawed and fallacious thinking that is damaging education at all levels throughout the United States and makes a compelling case for rethinking the standardized optimized and quantified approaches in vogue in education today to accommodate the different needs of individual teachers and students

The Common Core Opt Out- A Parents Guide Gustav Winds, 2014-06-02 The primary purpose of this book is to inform parents of the true nature of the current educational climate of their rights within the system and to empower them to opt out of the Common Core assessment process This book provides parents with a historical perspective on the evolution of the Common Core initiative and the high stakes testing environment It describes in detail reasons why parents should be extremely fearful of the impact that Race to the Top and Common Core are having on their children's future The text cites both the letter of law and legal precedence for this claim via the US Constitution federal law and rulings of the US Supreme Court Further it provides step by step directions for parents wishing to have their children opt out of or refuse participation in the Common Core testing program It equips parents with the tools to meet resistance at all levels with relevant documents citations to specific educational laws researched based facts and insights into expected outcomes due to the Common Core Straw arguments are exposed and coherent rebuttals are provided to dispel the false assertions of those who support the federal appropriation of American education Further the final chapter provides guidelines for community organizing around this issue as well as material support for parents and community members wishing to take action
