

Scheduling Elementary Tier 2 Interventions

Option 3: **'Floating RTI': Gradewide Shared Schedule**. Each grade has a scheduled RTI time across classrooms. No two grades share the same RTI time. Advantages are that outside providers can move from grade to grade providing push-in or pull-out services and that students can be grouped by need across different teachers within the grade.

Response to Intervention RtI involves evaluating the degree that students a master academic material in response to effective instruction and b demonstrate appropriate prosocial behavior in response to effective classroom management When students are not progressing or responding academically or behaviorally to effective instructional conditions RtI includes a functional assessment problem solving process to determine the reason s for the lack of success and the implementation of strategic through intensive interventions to help those students progress and be successful At an operational level RtI is often described as working within a flexible three tiered system that is guided by students academic and behavioral outcomes The goal ultimately is to facilitate learning and mastery by ensuring effective instruction and classroom management for all students Tier 1 and by speeding early and effective interventions to those students who need more strategic interventions Tier 2 or more intensive interventions Tier 3 interventions see the diagram below Critically effective RtI processes focus on a interventions not diagnostic labels b individualized functional assessment not universal or standard assessment batteries tests or evaluation protocols and c student focused contextual decision making not rigid psychometric decision rules At the core of this process is a data based functional assessment problem solving process While there are many sound problem

solving models and processes all of the effective ones have four primary components Problem Identification Problem Analysis Intervention and Evaluation While some utilize more steps or different semantic terms all of the research based models components can be distilled down to these four primary components From an RtI perspective it is critical to note that RtI is an evaluation step That is it is impossible to determine whether a student has responded to an intervention if the intervention has not already been implemented This Electronic Book E Book focuses on describing the critical components of effective RtI systems and approaches at the school district and state levels as well as the step by step the Data based Functional Assessment Problem Solving process that has been used nationally by Project ACHIEVE as the SPRINT School Prevention Review and Intervention Team process In doing this a Problem solving Consultation Intervention context is used throughout and effective instruction assessment progress monitoring intervention and evaluation processes from kindergarten through high school are highlighted In addition the seven steps of the Data based Functional Assessment Problem Solving process are presented in detail and applied to case studies Readers will learn how to scientifically clarify and identify referred student problems how to generate hypotheses to explain why these problems exist how to test and validate in invalidate these hypotheses and then how to link confirmed hypotheses to evidence based interventions and to evaluate students responsiveness to them Numerous case studies are presented throughout the E Book to demonstrate the RtI process and to provide readers with examples of how to implement it at student school system and state levels Readers should finish the book with a working understanding of how to implement effective RtI processes at all of these levels and how to strategically plan and evaluate the implementation process

strategy bank for secondary teachers This book offers a bank of proven RTI strategies for Grades 6-12 including easy to implement interventions and sample lessons that improve achievement for all students **It's Time for Strategic Scheduling** Nathan Levenson, David James, 2023-07-03 An accessible guide to creating schedules that amplify school and district priorities support best practices in teaching and learning heighten student engagement and enhance equity A school's schedule can be as important to education outcomes as its budget or strategic plan The secret to making the schedule a tool for school improvement is to approach schedule design not as a technical task centered on making everything fit like Tetris blocks but as a strategic one In this book informed by research and their work with hundreds of schools scheduling experts Nathan Levenson and David James explore how strategic scheduling can turn a good enough schedule into one that supercharges learning and engagement without additional costs or more FTEs If you are ready to Figure out which schedule type is best for your students and staff Disrupt harmful tracking and ensure every student has access to highly skilled teachers and rigorous curriculum Deliver optimum hours of core instruction while expanding electives and providing opportunities for student voice and choice Precisely match staffing to course enrollment to free up personnel and funds for other purposes Find time for critical intervention and enrichment blocks and Communicate scheduling decisions more effectively to parents families and district leaders then it's time for strategic scheduling Offering targeted advice for best practice scheduling at the elementary middle and high school levels this book will help school and district leaders and the teachers and students they serve make the most of every school day and every school year **Developing a Schoolwide Framework to Prevent and Manage Learning and Behavior Problems** Kathleen Lynne Lane, Holly Mariah Menzies, Wendy Peia Oakes, Jemma Robertson Kalberg, 2019-11-13 Now revised and expanded this volume explains how to design implement and evaluate a comprehensive integrated three tiered Ci3T model of prevention Rather than presenting a packaged program the book provides resources and strategies for designing and tailoring Ci3T to the needs and priorities of a particular school or district community Ci3T is unique in integrating behavioral academic and social emotional components into a single research based framework User friendly features include tools for collecting and using student and schoolwide data guidance for selecting effective interventions at each tier detailed case examples and tips for enhancing collaboration between general and special educators other school personnel and parents In a convenient large size format the volume includes several reproducible forms that can be downloaded and printed for repeated use Prior edition title Developing Schoolwide Programs to Prevent and Manage Problem Behaviors New to This Edition Updated step by step approach reflecting the ongoing development of Ci3T Chapter on evidence for the effectiveness of tiered models Chapter on low intensity teacher delivered strategies Chapter on sustaining effective implementation and professional development Lessons Learned feature reflections and examples from educators in a range of settings **Handbook of Response to Intervention and Multi-Tiered Systems of Support** Paige C. Pullen, Michael J. Kennedy, 2018-10-16 Of the many issues

facing special education and general education today it is difficult to imagine one more important or timely than response to intervention RTI Almost overnight RTI has become standard practice across the nation Unfortunately RTI remains ill defined falls far short of its evidence based practice goal is almost invariably misused and often results in more harm than good Nevertheless as a conceptual framework RTI has great potential for ensuring that students with disabilities receive appropriate evidence based instruction The mission of this handbook is to present a comprehensive and integrated discussion of response to intervention RTI and its relation to multi tiered systems of support MTSS in both special education and general education Although the two terms are currently used interchangeably distinct differences exist between them Therefore chapters are dedicated to distinguishing the two concepts RTI and MTSS and describing each one s unique role in both general and special education In addition the authors recommend a third term Multi Tiered Instruction to differentiate the practices related to the purpose of the specific intervention
