### Professional Growth Plan

Professional Growth Plans help teachers focus on areas of professional development that will enable them to improve their practice. Teachers are accountable for the implementation and completion of the plan and may use the plan as a starting point for the school year. (The Professional Growth Plan is intended to be one academic year in duration and may support the goals of the Individual Professional Development Plan- IPDP. **The Professional Growth Plan is not intended to replace the IPDP.**) The professional growth plan and process includes feedback from the evaluator as well as the teacher's self-assessment, and the support needed to further the teacher's continuous growth and development. Professional development should be individualized to the needs of the teacher and students (based on available data), and specifically relate to the teacher's areas for growth as identified in the teacher's evaluation. The evaluator should recommend professional development opportunities, and support the teacher by providing resources (e.g., time, financial). The growth plan should be reflective of the data available and include:

- Identification of area(s) for future professional growth;
- Specific resources and opportunities to assist the teacher in enhancing skills, knowledge and practice;
- Outcomes that will enable the teacher to increase student learning and achievement.

Department of Public Instruction, 2005 Personal & Professional Development (PDP) Junaid Javaid, 2014-09-23 Essay from the year 2012 in the subject Business economics Business Management Corporate Governance grade B University of Bedfordshire course MSc Finance Business Management language English abstract This report is written on the topic Personal and Professional Development which was introduced by

University of Bedfordshire's former student named Arti Kumar. In terms of scope, this report is broader in context as it includes the application and utilization of certain frameworks and models which we read and learnt in Business Communication module 2. This report consists of two main sections: Findings and Conclusion. In the finding phase, I applied the SOAR model for the purpose of career development. This SOAR framework has four aspects which are Self awareness, Opportunities, Aspirations, and Results. In the first factor, Self Awareness, I applied another model called MAP (Motivation, Ability, and Personality) and found that the career progression is my prominent motivating factor and also concluded that the learning style which looks most attracting for myself is Diverger. And at last, I also determined that the personality type characteristics which carried is Harmoniser. In the opportunity phase, I sorted out that in the short run, the most feasible option for myself is to engage in UK retail sector through the temporary or part time job and while in the long run, it would most attracting thing for me is to get employment in the Libyan Government sector as my preference is Job security when it comes to evaluate and analysis any job position. So it means that my aspiration is get employed by Government and then to progression in the specified department or area. Then in the Result phase, I demonstrates the result by mentioned that I have crafted my CV and Cover Letter in relation to the Aspirations I outlined in the previous part. After the SOAR model, I used and harnessed some more models to explore and elaborate self realisation in depth. Through the use of Johari Window Test on Internet, I discovered certain new things about myself that my blind spot characteristics are intelligent, mature, extrovert and caring. And while the open Area traits are Trustworthy and Confident. Through undergoing Cash flow Quadrant model, I determined that as job security is my prominent approach in evaluating the given job, so I want to engage myself in Employee Quadrant in short run as well as in long run. At the very end, I used Covey's 7 Habits theory and preferred to adopt first three habits as it will be enough to me to have to do the government job. So one can say that this report summarises all my career planning and development.

**Continuing Professional Development** Frankie Todd, 2017-05-23. Continuing professional development (CPD) aims to maintain or improve the quality of professional performance. So far, it tends to have been designed for specific professional groups such as teachers, doctors, architects or engineers. Approaches as a result have often been local, separatist or idiosyncratic in nature. This book, first published in 1987, argues that CPD designers should consider strategies used for professional groups other than their own. This title will be useful to anyone with a responsibility for developing and implementing courses and also to practitioners themselves as well as to students of business studies.      **Professional Development A Complete Guide - 2019 Edition** Gerardus Blokdyk, 2019-06-27.
