Succeeding With Your Master'S Dissertation: A Step-By-Step Handbook Biggam, John,2015-01-01 Succeeding with your Master s Dissertation is a step by step guide to completing your Master s dissertation

Supervising the PhD Sara Delamont,Paul Atkinson,Odette Parry,1997 This book provides everything you ever wanted to know about PhD supervision but were afraid to ask It is a practical no nonsense handbook for both the novice and the experienced higher degree supervisor The novice will find a developmental sequence of advice guiding them through all the stages of supervision from the first meeting to viva and beyond The experienced supervisor will find fresh ideas to improve practice and solve problems Based both on research among laboratory scientists and social scientists and on many years of experience the book also draws upon humanities examples and so is invaluable to academics in all disciplines At a time when there is increasing pressure to ensure quality provision to improve the PhD completion rate and to turn out employable graduates the need for this practical guide is obvious

The Good Supervisor Gina Wisker,2012-07-16 This engaging book outlines effective strategies for supervising students on a wide variety of research projects whether at undergraduate or postgraduate level It covers each stage of the research journey and provides guidance on working with students to define research topics select appropriate methodologies write up theses and prepare for the viva It also supports supervisors in establishing and maintaining good supervisory practices and shows how supervisors can help students to help themselves This will be essential reading for supervisors of undergraduate or postgraduate research projects dissertations and theses It is also an ideal resource for student researchers looking to get the most out of their relationship with their supervisor New to this Edition New content on cross cultural supervision online distance supervision and sustaining research communities and networks

Quantitative Methods in Social Science Research Stephen Gorard,2003-03-02 This clever scheme builds on Gorard s previous book *Quantitative Methods in Educational Research* He has revised the original book in the light of experience and feedback and has reworked it so that it includes more social science examples Four chapters are entirely new

Quantitative Methods in Educational Research Stephen Gorard,2010-07-01 This is a comprehensive guide to quantitative research rooted in the author s own teaching and research In particular it challenges both the student who does not do numbers and the student who does nothing but numbers and who therefore fails to interpret or challenge his/her results The book shows how all educational researchers need to do quantitative research even if only in the sense of reading other people s research findings In fact the book argues that the conventional distinction between primary and secondary research data is inadequate since there is enormous need/opportunity for conducting research through using and reinterpreting secondary data This leads to one of the

main selling points of the book Gorard's idea of the idle researcher who makes valuable contributions to the research literature by using data gathered by other researchers

Secrets of Success: Getting into Academic Medicine Philip Smith, Jasdeep Gill, Sukhjinder Nijjer, Jeremy Levy, 2011-05-27 Getting into Academic Medicine provides a comprehensive yet accessible guide for all doctors who are training to gain postgraduate qualifications and further their academic career. It explains what an academic career involves from diploma and masters courses through to completing a PhD and holding professional positions. How to prepare the ideal suc

Business Degree Success Jonathan Groucutt, 2008-08-20 This is a practical guide for those studying business and management related subjects at undergraduate level. Written in an engaging and clear style, the book helps students prepare effectively for assignments, presentations, examinations and dissertations encompassing both business studies and the real workings of business

Bullying Among University Students Helen Cowie, Carrie Anne Myers, 2015-09-16 Bullying Amongst University Students is a pioneering collection of knowledge and evidence exploring the under-researched phenomenon of bullying in universities. Abusive behaviour amongst young people is a serious and pervasive problem that is exacerbated by the rapid advances in electronic communication and in this book the authors highlight the problem and proceed to facilitate new practices and policies to address it. This book brings together an international team of authors from a range of disciplines encompassing education, psychology, criminology, law and counselling who have carried out research in the area of university bullying. Addressing critical dialogues and debates, the authors explore peer-on-peer violence, intimidation and social exclusion before considering its effects on students and making recommendations for action and further research. Key topics include Cyberbullying and cyber aggression, Rape culture across the university, Homophobic and transphobic bullying, The impact of bullying on mental health, The role of bully and victim across the lifespan, Policies and procedures to address bullying. International in authorship and scope, this book will be an invaluable resource for students and researchers in fields such as education, psychology, sociology, health studies and criminology. It is also essential reading for university policy makers and union representatives responsible for the emotional and physical well-being of students

The PhD Viva Peter Smith, 2014-10-02 This indispensable book helps PhD candidates to understand the viva process and to prepare and present their work in the best possible manner. With concrete guidance, examples and activities throughout, it covers everything from the constitution of the PhD viva panel and how to prepare as the event draws closer to typical questions and how to answer them. Chapters are enriched with authentic case studies and insights from successful PhD graduates. This text is suitable for PhD and other doctoral degree students across all disciplines and helpful to supervisors and examiners
