

## Service Academy Recommendation Letter

---

**November 25, 2050**

**Admissions Committee  
United States Military Academy  
West Point, NY 10996**

**Dear Members of the Admissions Committee,**

I am honored to write this letter of recommendation for Sarah M. Johnson, who is applying for admission to the United States Military Academy at West Point. I have had the privilege of teaching Sarah in several advanced history courses over the past three years at [Your Company Name], where I also serve as the head of the history department. I have seen her grow into an exceptional young leader with the intellect, character, and determination to thrive in the challenging environment at West Point.

Academically, Sarah is one of the brightest and most motivated students I have encountered in my 15 years of teaching. She consistently achieves top marks in all subjects, particularly excelling in history and government. Sarah's ability to analyze complex historical events and synthesize information into compelling arguments is unparalleled. She is highly respected by her peers and is often the first to lead discussions, offering insightful perspectives that stimulate intellectual growth in the classroom. Her work ethic and drive for excellence are truly exemplary, and I do not doubt that she will succeed in the rigorous academic environment at West Point.

The Marine Corps' Search for a Mission, 1880-1898 Jack Shulimson, 1993 Heirs to a storied past and glamorized as modern day knights the Marine Corps the elite fighting force in America's military in fact has not always been so highly regarded As Jack Shulimson shows only a century ago the Corps identity and existence were much in question Although the Marines were formally established by Congress in 1798 and subsequently distinguished themselves fighting on the Barbary Coast their essential mission and identity remained unclear throughout most of the nineteenth century But amid the crosscurrents of industrialization technological change professionalization and reform that emerged in Gilded Age America the Corps underwent a gradual transformation that ultimately secured its significant and enduring military role In this enlightening study Shulimson argues that the Marine Corps officers inextricable ties to the Navy both hampered and aided their attempt to define their own special jurisdiction and professional identity Often treated like a poor relation the Marine officers frequently found themselves in direct competition with their counterparts in the Navy and at times the object of the latter's scorn Shulimson reveals the processes politics and personalities that converged to create these tense and sometimes embattled relations but he goes on to show how Marine officers with the Navy's blessing eventually transcended their second class role

Bartlett, 1997 Few men have had more impact on Marine Corps history than Earl Hancock Pete Ellis and none have been more controversial Sometimes called the father of amphibious warfare he left behind a legacy tainted by subterfuge and mystery and his suspicious death in Micronesia in 1923 has gone unexplained for more than seventy years This book the result of decades of research worldwide provides the answers often disputing long accepted but unsubstantiated accounts of his life and death Was Ellis poisoned by the Japanese secret police as many historians assert

or did he drink himself to death as islanders claim What happened to his mission notes Was the mission sanctioned by the top U S military officials Did his plans and ideas help save the Marine Corps from extinction These and many other questions about this brilliant but troubled Marine are answered and substantiated for the first time using family papers fitness reports Japanese sources and eyewitness interviews never before available As this biography chronicles a tragic human drama it also records the corps s transition from naval infantry to after Ellis s death an amphibious assault force that was the key to one of the greatest naval campaigns in history
