Learning disabilities screening and evaluation guide for low- and middle-income countries Anne M.

Hayes, Eileen Dombrowski, Allison H. Shefcyk, Jennae Bulat, 2018-04-29 Learning disabilities are among the most common disabilities experienced in childhood and adulthood Although identifying learning disabilities in a school setting is a complex process it is particularly challenging in low and middle income countries that lack the appropriate resources tools and supports This guide provides an introduction to learning disabilities and describes the processes and practices that are

necessary for the identification process It also describes a phased approach that countries can use to assess their current screening and evaluation services as well as determine the steps needed to develop strengthen and build systems that support students with learning disabilities This guide also provides intervention recommendations that teachers and school administrators can implement at each phase of system development Although this guide primarily addresses learning disabilities the practices processes and systems described may be also used to improve the identification of other disabilities commonly encountered in schools

Research in Deaf Education Stephanie Cawthon, Carrie Lou Garberoglio, 2017-05-31 Edited by Stephanie W Cawthon and Carrie Lou Garberoglio Research in Deaf Education Contexts Challenges and Considerations is a showcase of insight and experience from a seasoned group of researchers across the field of deaf education Research in Deaf Education begins with foundational chapters in research design history researcher positionality community engagement and ethics to ground the reader within the context of research in the field Here the reader will be motivated to consider significant contemporary issues within deaf education including the relevance of theoretical frameworks and the responsibility of deaf researchers in the design and implementation of research in the field As the volume progresses contributing authors explore scientific research methodologies such as survey design single case design intervention design secondary data analysis and action research at large In doing so these chapters provide solid examples as to how the issues raised in the earlier groundwork of the book play out in diverse orientations within deaf education including both quantitative and qualitative research approaches Designed to help guide researchers from the germ of their idea through seeing their work published Research in Deaf Education offers readers a comprehensive understanding of the critical issues behind the decisions that go into this rigorous and important research for the community at hand *Today's Hearing-impaired Child--into the Mainstream of Education* Vira J. Froehlinger, 1981
