University Responsibility for the Adjudication of Research Misconduct Stefan Franzen, 2021-05-12 This book offers a scientific whistleblower's perspective on current implementation of federal research misconduct regulations It provides a narrative of general interest that relates current cases of research ethics to philosophical historical and sociological accounts of fraud in scientific research The evidence presented suggests that the problems of falsification and fabrication remain as great as ever but hidden because the current system puts universities in charge of investigations and permits them to use confidentiality regulations to hide the outcomes of investigations The book documents the significant conflict of interest that arises because federal regulation gives universities the responsibility to conduct investigations of their own faculty with severely limited oversight The book is intended for young research scientists or anyone who wishes to understand the challenges faced by scientists in the workplace today The central thread in the book is an exclusive account of an experienced research scientist who was the first to expose the facts that led to the longest running research misconduct investigation in the history of the National Science Foundation *Clean Air Act Oversight, Hearings Before the Subcommittee on Public Health and Environment ...*, 92-1 and 2, December 20, 1971; January 26, 27, and 28, 1972 United States. Managing A Public Speaker Bureau Stephen F. Gambescia, Evelyn Gonzalez, 2010-02-23 When health and human services organizations new established or mature engage in a strategic planning process invariably the suggestion is made to offer a public speaker bureau to support their mission As a professional in the health and human services field you probably have encountered to some degree the services provided by an organization's speakers bureau You have heard speakers representing organizations or you may have been a staff or volunteer speaker for an organization Public speaker bureaus are ubiquitous Providing a public speaker bureau usually makes sense It provides an easy and relatively inexpensive way to impart useful information to your constituents or the public or serve as a marketing or fundraising tool A public speaker bureau can increase your visibility in the communities that you serve or would like to serve Throughout our score of years of experience in the health and human services fields we were struck by the lack of attention given to most organizations public speaker bureaus Again while most organizations felt the need to have a speakers bureau relatively little attention was given to the management and evaluation of this service In fact few organizations spent quality time determining whether or not a public speaker bureau was indeed needed and if so what should be its strategic purpose in serving the mission of the organization
