

Annual Training Schedule by Program

All areas (except IRT and ODT) are assigned to January and July. IRT and ODT are assigned alphabetically for February/August, March/September, or April/October.

Classes should be taken the month they are due and **not** in advance, unless there are unusual circumstances, such as a planned medical leave, approved by your program coordinator, if taken in advance because of a previous delinquency, they must be taken again in the correct month.

Staff will be unable to work if training is delinquent.

Smythe, Defendant-Appellant**, The Born Again Runner Pete Magill, 2016-10-09 Pete Magill's *The Born Again Runner* is a one of a kind guide for everyone who wants to run but feels they can't As a drug addicted young man Pete Magill once found himself in the ER with his body telling him to give up Taking up running seemed impossible but he willed himself to do it anyway Magill went on to become one of the fastest masters runners ever a multi USA Masters Cross Country Runner of the Year and a sought after coach Over a glowing albeit hard won career he has heard every excuse people use to stop running or never start from achy knees and sore ankles to advanced age and arthritis to too many cigarettes or years on the couch In every case Magill's best advice is to do what he

did Run anyway at a pace and mileage that work Through inspiration science and anecdote Magill gets runners out the door through personal action plans he sets them on the right path and through the best exercises to protect and rehabilitate the body he keeps them going showing a way forward for new and sidelined runners who haven't before realized how close they are to fun and pain free running Whether you're just starting out as a runner or starting afresh you can do no better than heed the guidance of running's ultimate comeback kid Pete Magill as presented in *The Born Again Runner* Matt Fitzgerald award winning co author of *Pain Performance* Myths are busted and excuses are denied It will be pretty difficult to deny Magill so just get out there start and stay with your running regime Portland Book Review *Entrepreneurship Education and Training Programs around the World* Alexandria Valerio, Brent Parton, Alicia Robb, 2014-05-06 Entrepreneurship has attracted global interest for its potential to catalyze economic and social development Research suggesting that certain entrepreneurial mindsets and skills can be learned has given rise to the field of entrepreneurship education and training EET Despite the growth of EET global knowledge about these programs and their impact remains thin In response this study surveys the available literature and program evaluations to propose a Conceptual Framework for understanding the EET program landscape The study finds that EET today consists of a heterogeneous mix of programs that can be broken into two groups entrepreneurship education and entrepreneurship training These programs target a range of participants secondary and post secondary education students as well as potential and practicing entrepreneurs The outcomes measured by program evaluations are equally diverse but generally fall under the domains of entrepreneurial mindsets and capabilities entrepreneurial status and entrepreneurial performance The dimensions of EET programs vary according to the particular target group Programs targeting secondary education students focus on the development of foundational skills linked to entrepreneurship while post secondary education programs emphasize skills related to strategic business planning Programs targeting potential entrepreneurs generally are embedded within broader support programs and tend to target vulnerable populations for whom employment alternatives may be limited While programs serving practicing entrepreneurs focus on strengthening entrepreneurs knowledge skills and business practices which while unlikely to transform an enterprise in the near term may accrue benefits to entrepreneurs over time The study also offers implications for policy and program implementation emphasizing the importance of clarity about target groups and desired outcomes when making program choices and sound understanding of extent to which publicly supported programs offer a broader public good and compare favorably to policy alternatives for supporting the targeted individuals as well as the overall economic and social objectives
