Empowering Students Through Questioning Mario C. Barbieri, 2022-02-09 Teachers ask 40 questions a day. Do the questions empower students, assess student knowledge of the subject matter, or promote student metacognition? *Empowering Students Through Questioning: A Guide for Understanding the Skills in Lesson Design and Instruction* addresses the art and skill of questioning so teachers can plan more effective lessons and achieve greater student engagement and cognition. Included are practice activities for teachers to use in planning questions for their lesson, as well as field-tested rubrics to help coach and mentor teachers in understanding how their questions address student activity. The book also discusses common pitfalls of questioning, what type of test is best to use to assess student knowledge, activities for planning and assessing questioning, types of assessments to use, and the types of questions that are most effective for the specific assessment. The relationship between Revised Bloom's Taxonomy, teacher input, and Webb's Depth of Knowledge, student output, is also shown so teachers can see the impact of their questioning.

Common Formative Assessments 2.0 Larry Ainsworth, Donald Viegut, 2014-11-14 Assessments that improve the speed and quality of learning, fully updated for teacher teams. In this expanded, all-new edition, author Larry Ainsworth provides a system of intentionally aligned components: standards, instruction, assessments, and data analysis that all work together to improve student learning. Readers will learn to build the highway to aligned assessments, decide the learning intentions and student success criteria for a unit of study, evaluate and revise assessment questions for quality, plan the learning progressions for students to attain the learning intentions, create quick progress checks to coincide with the learning progressions, use assessment results as feedback to adjust instruction and student learning strategies, and upgrade your CFAs.
