

Guidelines for Research/Survey Paper

You may work individually or form a team with a partner. (This means each team has at most two students.) Each team must submit a final term paper to get credit for this course. You may choose to write a survey paper on zero-day attack defense or alert correlation, or write a research paper to develop your own ideas.

The paper must have a title page, main content, and references. The paper should be **single-column, 1 inch margins, 11-point size, and single-spaced**. The paper should be **at most 15 pages**, excluding references and well marked appendices.

To facilitate the grading of your paper, please follow the suggested organization listed below.

The **title page** should include

- the title of the paper or project
- group member name(s) and email address(es)
- course name, number, and instructor's name
- a maximum 300-word abstract
- three to five keywords.

For **research papers**, the main content of the proposal should at least include the following:

Introduction

- Discuss the background and motivation of your work.
- Summarize the research problem
- Summarize the proposed approach to the problem and the results

Related work

- Discuss research related to yours and make comparison if there are closely related work.
