Identifying, Describing, and Developing Teachers Who Are Gifted and Talented Van Sickle, Meta L.,Swanson, Julie D.,Bazler, Judith A.,Lubniewski, Kathryn L.,2018-12-07 Much of the research about teachers focuses on those who can t don t aren t good in the classroom However teachers who are gifted and talented exist but there has been little attention to date on the characteristics and practices of such teachers in the classroom While few the examples of research on positive teacher attributes include work on the expert authentic and creative as well as examples of research on eminent adults *Identifying Describing and Developing Teachers Who Are Gifted and Talented* is an essential reference source that discusses behaviors and traits in teachers who are considered gifted and talented as well as case studies on the identification and preparation of teachers who fall into this category Featuring research on topics such as creative innovation emotional intelligence and skill development this book is ideally designed for educators administrators researchers and academicians **The Accident at Sanborn Corners.....And Other Minnesota Short Stories** J. L. Larson,2013-06-11 Minnesota is known for frigid weather thousands of lakes and Scandinavian humor But in this anthology of ten short stories J L Larson shows a different side of the

state via unique tales of conflict adventure and intrigue that often transport characters outside its borders In July of 1970 at a benign looking intersection in the middle of Minnesota farmland a fateful mishap occurs yet again What is it about this seemingly nondescript junction that makes it such a repetitive and bloody deathtrap Is it the terrain the weather the driver or a combination of these and maybe a few other factors In another story a paper company executive and his wife must cope with an empty nest and the loss of his job Hes doing fine until he receives a strange late night call about his self centered malicious nemesis from the old job In tale after tale Larson showcases eclectic characters who embark on adventures that include a disaster on a popular lake an emotional confrontation in a university classroom the mysterious travel exploits experienced by a young man with his uncle and the recurring dramatic impact on a young teen as his life moves forward following a seemingly insignificant encounter The Accident at Sanborn Corners and Other Minnesota Short Stories is an entertaining compilation of situations and themes that illustrate how various characters cope with the unexpected in life

Colormute Mica Pollock, 2009-04-11 This book considers in unprecedented detail one of the most confounding questions in American racial practice when to speak about people in racial terms Viewing race talk through the lens of a California high school and district Colormute draws on three years of ethnographic research on everyday race labeling in education Based on the author's experiences as a teacher as well as an anthropologist it discusses the role race plays in everyday and policy talk about such familiar topics as discipline achievement curriculum reform and educational inequality Pollock illustrates the wide variations in the way speakers use race labels Sometimes people use them without thinking twice at other moments they avoid them at all costs or use them only in the description of particular situations While a major concern of everyday race talk in schools is that racial descriptions will be inaccurate or inappropriate Pollock demonstrates that anxiously suppressing race words being what she terms colormute can also cause educators to reproduce the very racial inequities they abhor The book assists readers in cultivating a greater understanding of the pitfalls and possibilities of everyday race talk and clarifies previously murky discussions of colorblindness By bridging the gap between theory and practice Colormute will be enormously helpful in fostering ongoing conversations about dismantling racial inequality in America
