

SCIENCE TEST

35 Minutes—40 Questions

DIRECTIONS: There are several passages in this test. Each passage is followed by several questions. After reading a passage, choose the best answer to each question and fill in the corresponding oval on your answer document. You may refer to the passages as often as necessary.

You are NOT permitted to use a calculator on this test.

Passage 1

In a particular *playa* (relatively flat, dry desert basin) evidence shows that some large rocks have moved along the surface, leaving shallow trails in the clay sediment, some up to several hundred meters long. Three scientists provided explanations for how these rocks moved.

Scientist 1

In the spring, snowmelt from surrounding mountains runs downhill and collects in the *playa*. At night, cold temperatures cause this water to freeze around the rocks. When temperatures rise again, the ice begins to melt, leaving a layer of mud on the surface and ice “rafts” around the rocks. The buoyancy of the ice rafts floats the rocks on top of the mud such that even light winds can then push the rocks along the surface. Evidence of this lifting is seen in that the trails left by rocks are both shallow and only about $\frac{2}{3}$ as wide as the rocks themselves. Due to the combination of ice, mud, and light winds, the rocks are able to move several hundred meters in a few days.

Scientist 2

Snowmelt from surrounding mountains does collect in the *playa* during the spring. However, the temperature in the *playa* does not get cold enough for ice to form. When the *playa*’s surface gets wet, the top layer of clay transforms into a thick, muddy film. In addition, dormant algae present in the dry clay begin to grow rapidly when the clay becomes wet. The presence of mud and algae reduces friction between the rocks and the clay. Even so, relatively strong winds are required to push the rocks along the wet surface, forming trails. Due to the combination of mud, algae, and strong winds, the rocks are able to move several hundred meters in a few hours.

Scientist 3

Water does collect in the *playa*, producing mud and ice. However, neither mud nor ice is responsible for the rocks’ movements. The *playa* is located along a fault line between tectonic plates. Minor vertical shifts in the plates cause the rocks to move downhill, leaving trails. Due to the combination of tectonic plate movement and strong winds, the rocks are able to move only a few meters over several years.

1. According to Scientist 2, friction between the rocks and the clay is reduced by which of the following?
A. Ice only
B. Algae only
C. Ice and mud only
D. Mud and algae only
2. Suppose a researcher observed that wind speeds greater than 80 miles per hour are needed to move the rocks in the *playa*. This observation is consistent with which of the scientists’ explanations?
F. Scientists 1 and 2 only
G. Scientists 1 and 3 only
H. Scientists 2 and 3 only
J. Scientists 1, 2, and 3
3. Suppose that no seismic activity was recorded in the *playa* where the trails left by the rocks are found. This finding would weaken which of the scientists’ explanations?
A. Scientist 1 only
B. Scientist 3 only
C. Scientist 1 and Scientist 2 only
D. Scientist 2 and Scientist 3 only
4. Suppose it were discovered that a particular rock formed a 200 m long trail in 72 hr. Would this discovery support Scientist 1’s explanation?
F. Yes; Scientist 1 indicated the rocks can move several hundred meters in a few hours.
G. Yes; Scientist 1 indicated the rocks can move several hundred meters in a few days.
H. No; Scientist 1 indicated the rocks can move several hundred meters in a few hours.
J. No; Scientist 1 indicated the rocks can move several hundred meters in a few days.

Test 35 Minutes 40 Questions Answer Key

Huangqi Zhang

Test 35 Minutes 40 Questions Answer Key:

This is likewise one of the factors by obtaining the soft documents of this **Test 35 Minutes 40 Questions Answer Key** by online. You might not require more become old to spend to go to the book establishment as skillfully as search for them. In some cases, you likewise get not discover the notice Test 35 Minutes 40 Questions Answer Key that you are looking for. It will no question squander the time.

However below, like you visit this web page, it will be for that reason definitely easy to get as competently as download guide Test 35 Minutes 40 Questions Answer Key

It will not receive many become old as we run by before. You can pull off it though produce an effect something else at home and even in your workplace. as a result easy! So, are you question? Just exercise just what we present under as capably as review **Test 35 Minutes 40 Questions Answer Key** what you subsequently to read!
