Toward a Better Future Fredriksen Birger, Sing Kong Lee, Chor Boon Goh, 2008-04-18 Toward a Better Future provides a comprehensive analysis of education development in Singapore since 1965 giving particular attention to the strategic management that has enabled Singapore to transform its education and training system from one similar to that of many Sub Saharan African countries four decades ago into one of the world's best performing systems. It is one of a pair of concurrently published books presenting materials originally developed for a 2006 study tour to Singapore and Vietnam for senior education officials from Cameroon, Ethiopia, Ghana, Lesotho, Madagascar, and Mozambique. The second book, An African Exploration of the East Asian Education Experience, presents five country studies as well as regional comparative analyses highlighting insights gained during the study tour and putting them in the context of Sub Saharan Africa. Together, the two books aim to foster knowledge exchange between Sub Saharan African and East Asian countries on good practices in the design and implementation of education policies and programs. By facilitating the cross-country fertilization of ideas between two regions with relatively limited contact in the past, these books fill a clear gap in the current literature on development practice in education.
