Engineering Speaking by Design Edward J. Rothwell, Michael J. Cloud, 2017-12-19 From the Authors of Engineering Writing by Design Creating Formal Documents of Lasting Value Engineering presentations are often a topic of frustration Engineers complain that they don't enjoy public speaking and that they don't know how to address audiences with varying levels of technical knowledge Their colleagues complain about the state of information transfer in the profession Non engineers complain that engineers are boring and talk over everybody's heads Although many public speaking books exist most concentrate on surface issues failing to distinguish the formal oral technical presentation from general public speaking Engineering Speaking by Design Delivering Technical Presentations with Real Impact targets the formal oral technical presentation skills needed to succeed in modern engineering Providing clear and concise instruction supported by illustrative examples the book explains how to avoid logical fallacies both formal and informal use physical reasoning to catch mistakes in claims master the essentials of presentation style conquer the elements of mathematical exposition and forge a connection with the audience Each chapter ends with a convenient checklist bulleted summary and set of exercises A solutions manual is available with qualifying course adoption Yet the book's most unique feature is its conceptual organization around the engineering design process This is the process taught in most engineering survey courses understand the problem collect relevant information generate alternative solutions choose a preferred solution refine the chosen solution and so on Since virtually all engineers learn and practice this process it is so familiar that it can be applied seamlessly to formal oral technical presentations Thus Engineering Speaking by Design Delivering Technical Presentations with Real Impact is inherently valuable in that it shows engineers how to leverage what they already know The book's mantra is if you can think like an engineer you can speak like an engineer

Textual Curation Krista Kennedy, 2016-11-01 A study of the roles community financial support texts information structures interfaces and technology play in collaborative works Wikipedia is arguably the most famous collaboratively written text of our time but few know that nearly three hundred years ago Ephraim Chambers proposed an encyclopedia written by a wide range of contributors from illiterate craftspeople to titled gentry Chambers wrote that incorporating information submitted by the public would considerably strengthen the second edition of his well received Cyclop dia which relied on previously published information In *Textual Curation* Krista Kennedy examines the editing and production histories of the Cyclop dia and Wikipedia the ramifications of robot written texts and the issues of intellectual property theory and credit Kennedy also documents the evolution of both encyclopedias as well as the participation of central players in discussions about the influence of technology and collaboration in early modern and contemporary culture Through this comparative study based on extensive archival research and data driven analysis Kennedy illuminates the deeply situated nature of authorship which is dependent on cultural approval and stable funding sources as much as it is on original genius and the ownership of intellectual property Kennedy s work significantly revises long held notions of authorial agency and autonomy establishing the continuity of new writing projects such as wikis with longstanding authorial practices that she

calls textual curation This study examines a wide range of texts that recompose accepted knowledge into reliable complex reference works combining contributions of article text alongside less commonly considered elements such as metadata vocabularies cross indexing and the development of print and digital interfaces Comparison of analog and networked texts also lays bare the impact of technological developments both in the composing process and in the topics that can practically be included in such a text By examining the human and technological curators that support these encyclopedias as well as the discourses that surround them Kennedy develops textual curation as a longstanding theory and process that offers a nuanced construction of authorship
