Statistical Tables for Multivariate Analysis Heinz Kres, 2012-12-06 An English translation of my *Statistische Tabellen zur multivariaten Analysis Ein Handbuch mit Hinweisen zur Anwendung* was planned already in 1975 when I prepared the German volume The tables were immediately supplied with German and English headings for the intended photo offset printing In the meantime new and important tables for multivariate statistical hypotheses and procedures have been compiled and published Only four of them have been incorporated in the present volume The selection of these tables must be on an individual basis for reasons of space Let me mention only the new tables for sample size determination in MANOVA The instructions for using the tables are all organized in the same way They are kept short since it is not the task of such a work to provide an introduction to the theory and practice of multivariate analysis I have renounced giving examples for the same reason I wish instead to refer the reader to the many good textbooks that are available as well as to my own works on methods that are in preparation Furthermore I am of the opinion that statistical tables should accompany the textbook rather than be included in it vii viii Finally my thanks go to the translator Mr Peter R Wadsack as well as to the ladies and gentlemen of Springer Verlag for their pleasant collaboration and their indulgence of my numerous requests
