Oral ESL Test Anxiety with Emirati Secondary School Students Christopher Blake, 2016-11-07 Diploma Thesis from the year 2011 in the subject Psychology Intelligence and Learning Psychology grade none course MA IN TESOL language English abstract In the UAE and globally high stakes testing is prevalent in second language learning One important and integral part of high stakes English language tests is the oral proficiency interview which can be a pre requisite to gaining admission to an English speaking university The volunteer participants were 25 15 17 year old Emirati students from two IGCSE ESL classes that I do not teach This study included a videotaped mock oral proficiency IGCSE interview audiotaped semi structured individual interviews questionnaires and an audiorecorded semi structured focus group discussion The findings suggested that language and test anxiety is multi faceted and can affect boys and girls in a number of different ways and at different times

during class activities and also in an OPI In addition all participants showed different physical signs of test anxiety during the first two stages of the OPI and these physical signs of test anxiety were considerably less frequent in the final part of the OPI The causes and types of anxiety reported by the students ranged from language learning difficulties problems trying to retrieve appropriate English vocabulary code switching from Arabic language to English and vice versa differences in social status of the teachers language instructors and unfamiliarity with the interlocutor The pedagogical implications of these findings for understanding anxiety and oral test anxiety with second language students for teachers schools and examination boards are discussed as are suggestions for future research Furthermore considering the important role of teachers in second language pedagogy and the use of English as the main language of instruction this study also offers suggestions to lessen anxiety for oral class activities and oral assessments and presents test taking strategies
