Studying Politics Across Media Leticia Bode,Emily K. Vraga,2020-06-29 This book highlights the diverse methods needed to study a complex media environment and the nuance and richness of the understanding gained by doing so by offering examples of political communication research considering

multiple platforms simultaneously Political communication research that considers multiple media platforms is difficult and expensive to perform and therefore relatively rare Yet studying media platforms in isolation ignores the realities of the varied and complicated contemporary media experience where most individuals consume information from multiple media outlets Media platforms from traditional outlets such as newspapers and television to newer online platforms such as social media have proliferated in recent years This makes the media environment itself more complex as classic understandings of how the media function give way to a growing recognition of the hybrid media system where divisions between content and producers are opaque and where information is gleaned from increasingly diverse and numerous sources Studying political communication across platforms allows better understanding of which types of experiences and effects are universal and which are specific to particular platforms This book was originally published as a special issue of Political Communication

Richard Dawkins: The Pope of Unreason Mike Hockney, 2014-12-19 A book attacking the ideology of Richard Dawkins is invariably assumed to be a defence of religious faith Nothing could be further from the truth in this case This book equates faith with insanity Instead it argues that we live in the hyperrational reality of ontological mathematics We attack the scientific dogma of Dawkins and his fellow travellers for being incompatible with ontological mathematics and in fact constituting a quasi religious hence mad faith in empiricism materialism randomness and meaninglessness nihilism all of which are refuted by ontological mathematics which reflects the principle of sufficient reason Are you rational enough for the truth Are you intelligent enough to be an ontological mathematician Many are called few are chosen

The Effective Citizen Graham Steele, 2021-04-06 One of Canada's most compelling political writers reveals how government really works and how ordinary citizens can make it work for them A lawyer analyst and former Nova Scotia cabinet minister Graham Steele shared a candid chronicle of his experiences in Canadian government with his acclaimed memoir What I Learned About Politics Now he presents an insiders guide to modern Canadians politics answering elusive questions such as Who really runs the parties What does a backbencher do And how does a citizen effectively navigate the system to achieve change A primer for anyone who wants to become a politician or influence one The Effective Citizen explains how politicians think and what factors influence that thinking how to interpret the non answer in political speech and acknowledges that in politics bland is safe

Secession and Conflict Zheger Hassan, 2023-02-15 The overthrow of Saddam Hussein in 2003 in Iraq opened the door for Kurdish nationalists to move toward outright independence Despite the recent visibility of the Kurds in the international media little is known about their political aspirations as citizens of an autonomous region In *Secession and Conflict* Zheger Hassan employs a comparative analysis to explore why Iraqi Kurdistan despite being better positioned institutionally and economically than the similar cases of South Sudan and Kosovo has not declared independence In rebuilding Iraq and fighting against the Islamic State the Kurds have cultivated important political alliances with the US and Europe which have garnered them international economic military and political support Though now well positioned to function as an independent state Iraqi Kurdistan has vacillated in seizing this golden opportunity to declare independence The apparent Kurdish willingness to forgo independence runs counter to the prevailing narratives about the Kurds in the Middle East Hassan draws not only on the history of the Kurds but also on first hand interviews with high ranking officials journalists and nationalists to provide a new window into the calculations of Kurdish leaders as they navigate the complicated politics of Iraq *Secession and Conflict* offers a new model for understanding the Kurdish question in Iraq

A Century of Compulsory Voting in Australia Matteo Bonotti, Paul Strangio, 2021-03-13 Compulsory voting has operated in Australia for a century and remains the best known and arguably the most successful example of the practice globally By probing that experience from several disciplinary perspectives this book offers a fresh up to date insight into the development and distinctive functioning of compulsory voting in Australia By juxtaposing the Australian experience with that of other representative democracies in Europe and North America the volume also offers a much needed comparative dimension to compulsory voting in Australia A unifying theme running through this study is the relationship between compulsory voting and democratic well being Can we learn anything from Australia s experience of the practice that is instructive for the development of institutional bulwarks in an era when democratic politics is under pressure globally Or is Australia s case sui generis best understood in the final analysis as an intriguing outlier
