How to Make Better Decisions. Examples from Exploration Bernhard Seubert, 2021-11-26 Scientific Essay from the year 2014 in the subject Psychology Industrial and organizational psychology grade A language English abstract Good decision making creates value for a company The decision to drill in the right place or not has strong economic repercussions Moreover the human approach to decision making can be flawed Many of the common flaws in decision making are related to heuristic factors that is by human ways of thinking and drawing conclusions These factors can negatively impact the outcomes of an exploration program This paper gives examples of cases in which geoscientific reasoning can lead to pitfalls and explores why this is so The paper then discusses the merits of the multiple working hypotheses MWH concept as an aid to harnessing seemingly contradictory data relating to several often mutually exclusive interpretations or scenarios A simple method using a spreadsheet and decision tree analysis is proposed to quantify the outcomes of multiple scenarios The method is illustrated by a subsurface example in which two possible interpretations reef versus volcano are considered An outlook of Bayesian statistics and other methods is included

24 Years UPSC IAS/ IPS Prelims Topic-wise Solved Papers 1 & 2 (1995-2018) 9th Edition Mrunal, 2018-07-10 Disha s BESTSELLER 24 Years CSAT General Studies IAS Prelims Mains Topic wise Solved Papers 1995 2018 consists of past years solved papers of the General Studies Paper 1 2 distributed into 8 Units and 52 Topics This is the 9th edition of the book and has been thoroughly revised and updated The book has been designed in 2 colour so as to make it more student friendly The book also provides Essays divided topic wise from 1993 2017 The strength of the book lies in the Errorless DETAILED Solutions The book is 100% useful for both the General Studies papers 1 and 2 of the Prelims CSAT

2014 International Conference on Advanced Education and Management (ICAEM2014), 2014-02-13 The ICAEM2014 aims to bring together researchers educators and students from around the world in both industry and academia for sharing the state of art research results and applications for exploring new areas of research and development and for discussing emerging issues on education and management fields We received a total of 312 submissions from various parts of the world The Technical Program Committee worked very hard to have all papers reviewed before the review deadline The final technical program consists of 92 papers There are one keynote speech and 2 invited sessions The proceedings were published by DEStech Publications Inc and will be submitted to Ei Compendex databases for indexing We would like to mention that due to the limitation of the conference

venue capacity we are not able to include many fine papers in the technical program Our apology goes to those authors

Handbook of Water Resources Management: Discourses, Concepts and Examples Janos J. Bogardi, Joyeeta Gupta, K. D. Wasantha Nandalal, Léna Salamé, Ronald R.P. van Nooijen, Navneet Kumar, Tawatchai Tingsanchali, Anik Bhaduri, Alla G. Kolechkina, 2021-06-12 This book provides an overview of facts theories and methods from hydrology geology geophysics law ethics economics ecology engineering sociology diplomacy and many other disciplines with relevance for concepts and practice of water resources management It provides comprehensive but also critical reading material for all communities involved in the ongoing water discourses and debates The book refers to case studies in the form of boxes sections or as entire chapters They illustrate success stories but also lessons to be remembered to avoid repeating the same mistakes Based on consolidated state of the art knowledge it has been conceived and written to attract a multidisciplinary audience The aim of this handbook is to facilitate understanding between the participants of the international water discourse and multi level decision making processes Knowing more about water but also about concepts methods and aspirations of different professional disciplinary communities and stakeholders professionalizes the debate and enhances the decision making

Entrepreneurial Learning City Regions Judith James, Jean Preece, Raúl Valdés-Cotera, 2017-09-21 This book proposes an alternative strategy to improve and sustain prosperity through the creation of an entrepreneurial culture in learning cities or city regions The edited collection provides insights into how entrepreneurship education job creation and social inclusion can be aligned through entrepreneurial learning in the context of territorial development With rich and varied contributions from a wide field including policy makers entrepreneurs an investment banker leaders of universities and councils the voluntary sector scientists educators and students it reviews and assesses how learning cities and regions may become more prosperous by investing in the development of entrepreneurial skills throughout lifelong learning Reinforced by examples on developing and retaining entrepreneurial people this book contributes to our understanding of how entrepreneurial learning can be fostered in different city and city region contexts It makes an interesting contribution to the field in terms of mapping out complex issues and testing the practical validity of the concept while also providing rich and insightful case studies centred on the Welsh experience with entrepreneurial learning city regions The high quality international contributions demonstrate the new worldwide interest in developing an entrepreneurial culture for the benefit of a city or region rather than an entrepreneurial mind set for individual benefit This fascinating subject will be of interest to many social scientists policymakers and practitioners It will be found especially valuable for professionals involved in economic inclusive and sustainable city or regional development

Dual-use life science research and biosecurity in the 21st Century: Social, Technical, Policy, and Ethical Challenges Jonathan E. Suk, Kathleen M. Vogel, Amanda Jane Ozin, 2015-06-04 In September 2011 scientists announced new experimental findings that would not only threaten the conduct and publication of influenza research but would have significant policy and intelligence implications The findings

presented a modified variant of the H5N1 avian influenza virus hereafter referred to as the H5N1 virus that was transmissible via aerosol between ferrets These results suggested a worrisome possibility the existence of a new airborne and highly lethal H5N1 virus that could cause a deadly global pandemic In response a series of international discussions on the nature of dual use life science arose These discussions addressed the complex social technical political security and ethical issues related to dual use research This Research Topic will be devoted to contributions that explore this matrix of issues from a variety of case study and international perspectives *Technologies in Biomedical and Life Sciences Education* Harry J. Witchel, Michael W. Lee, 2022-06-24 This contributed volume focuses on understanding the educational strengths and weaknesses of mediated content including media as a learning supplement in comparison to traditional face to face learning Each chapter includes research on and a broad brush summary of approaches to combining life sciences education with educational technologies The chapters are organized into four main sections each of which focuses on a key question regarding the consequences of incorporating media into education In this regard the authors highlight how educational technology is both a bridge and barrier to student access and inclusivity Further they address the ongoing discussion as to whether students need to be present for lectures and on how having agency in their own learning can improve both retention and conceptual understanding To link the content to current events the authors also shed light on the impact that the COVID 19 pandemic is having on the continuity of educational programs and on the growing importance of educational technologies Consequently the book offers life science educators valuable guidance on the technologies already available and an outlook on what is yet to come

26 Years UPSC IAS/ IPS Prelims Topic-wise Solved Papers 1 & 2 (1995 - 2020) 11th Edition Disha Experts, 2020-01-01

Research Handbook on End of Life Care and Society David Clark, Annemarie Samuels, 2025-09-10 This is an open access title available under the terms of a CC BY 4.0 License It is free to read download and share on Elgaronline.com This comprehensive Research Handbook provides an accessible overview of research on palliative and end of life care in its social context It examines key theories methods and research findings presenting crucial social science and public health perspectives *Nursing Theorists and Their Work - E-Book* Martha Raile Alligood, Sonya R. Hardin, 2025-06-10 Understand the thinking of 39 leading nursing theorists in one comprehensive text *Nursing Theorists and Their Work Eleventh Edition* provides a clear in depth look at nursing theories of historical and international significance Each chapter presents a key nursing theory or philosophy showing how systematic theoretical evidence enhances decision making professionalism and quality of care Lead author Martha Raile Alligood is known nationally and internationally for her expertise in nursing theory A classic in the field of nursing theory this text uses objective critiques case studies and critical thinking activities to bridge the gap between nursing theory and application in the practice of nursing NEW Information on the state of nursing in health care after COVID 19 illustrates how nursing knowledge development continues to evolve with new theories that address current health care needs for quality nursing

care Theorist chapters written by scholars specializing in that theorist's work often having worked closely with the theorists provide the most accurate and complete information possible Case studies at the end of each theorist chapter present the theory in a larger perspective demonstrating how it can be applied in practice Critical thinking activities at the end of each theorist chapter help you to process the theory presented and apply it to personal and hypothetical nursing practice situations Theory specific diagrams help you visualize and better understand inherently abstract concepts and their relationships Major Concepts and Definitions boxes outline a theory's most significant ideas and clarify vocabulary Brief summary sections offer valuable review for tests and validate comprehension Points for Further Study sections direct you to sources of additional information A diagram in each unit illustrates the level of abstraction of the theoretical knowledge presented New information on international theorists will be included New information the topic of clinical reasoning and judgment and how it relates to the various theories presented will be included The new AACN Essentials will be addressed and included where appropriate throughout the text

A History of Psychology in Ten Questions Michael Hyland, 2023-11-23 The second edition of this student friendly book uses the history of psychology as a backdrop to provide a commentary on key historical developments and modern dilemmas whilst encouraging readers to think about questions affecting life today How do you know if something is true How do you explain and control behaviour What is the relation between psychology and physiology How will artificial intelligence affect humanity This book answers these and other questions by covering a wide range of topics in psychology including neuroscience personality behaviourism cognitive and humanistic psychology qualitative methodology inheritance and hermeneutics all brought up to date with recent research Drawing on the author's own teaching the book is structured around ten key questions where the history of psychology provides insight into modern life Accessible for all readers each chapter is also equipped with a Lesson for modern life and nine Essays and discussion topics so that readers can apply these ideas to their own thought practice These provide interesting topics for discussion around issues that affect life and society This insightful text encourages readers to question their own lives and the wider society by providing an engaging introduction to debates in history and contemporary society The book is also the ideal resource for undergraduate students of psychology taking CHIPS and other history of psychology modules as well as anyone generally interested in learning more about this fascinating subject This text also has its own Instructors Resources which includes Multiple Choice Questions Student Slides and Lecture Slides These will be available from Routledge's Instructors Hub once the book has published

Guy Cheron, Maurizio Bertollo, Sergio Machado, 2023-10-05

Injustice Danny Dorling, 2015-06-03 In the five years since the first edition of *Injustice* there have been devastating increases in poverty hunger and destitution in the UK Globally the richest 1% have never held a greater share of world wealth while the share of most of the other 99% has fallen in the last five years with more and more people in debt especially the young Economic inequalities will persist and continue to grow for as

long as we tolerate the injustices which underpin them This fully rewritten and updated edition revisits Dorling s claim that Beveridge s five social evils are being replaced by five new tenets of injustice elitism is efficient exclusion is necessary prejudice is natural greed is good and despair is inevitable By showing these beliefs are unfounded Dorling offers hope of a more equal society We are living in the most remarkable and dangerous times With every year that passes it is more evident that Injustice is essential reading for anyone concerned with social justice and wants to do something about it **The Seven Deadly Sins of Psychology** Chris Chambers,2019-07-16 Why psychology is in peril as a scientific discipline and how to save it Psychological science has made extraordinary discoveries about the human mind but can we trust everything its practitioners are telling us In recent years it has become increasingly apparent that a lot of research in psychology is based on weak evidence questionable practices and sometimes even fraud The Seven Deadly Sins of Psychology diagnoses the ills besetting the discipline today and proposes sensible practical solutions to ensure that it remains a legitimate and reliable science in the years ahead In this unflinchingly candid manifesto Chris Chambers shows how practitioners are vulnerable to powerful biases that undercut the scientific method how they routinely torture data until it produces outcomes that can be published in prestigious journals and how studies are much less reliable than advertised Left unchecked these and other problems threaten the very future of psychology as a science but help is here The Essence of Multivariate Thinking Lisa L. Harlow,2014-02-18 By focusing on underlying themes this book helps readers better understand the connections between multivariate methods For each method the author highlights the similarities and differences between the methods when they are used and the questions they address the key assumptions and equations and how to interpret the results The concepts take center stage while formulas are kept to a minimum Examples using the same data set give readers continuity so they can more easily apply the concepts Each method is also accompanied by a worked out example SPSS and SAS input and an example of how to write up the results EQS code is used for the book s SEM applications This extensively revised edition features New SEM chapters including an introduction ch 10 path analysis ch 11 confirmatory factor analysis ch 12 and latent variable modeling ch 13 the last three with an EQS application A new chapter on multilevel modeling ch 8 that is now used more frequently in the social sciences More emphasis on significance tests effect sizes and confidence intervals to encourage readers to adopt a thorough approach to assessing the magnitude of their findings A new data set that explores the work environment More discussion about the basic assumptions and equations for each method for a more accessible approach New examples that help clarify the distinctions between methods A new website at <https://sites.google.com/site/multivariate2ndedition> that features the datasets for all of the examples in the book for use in both SPSS and SAS and in EQS for the SEM chapters The first two chapters review the core themes that run through most multivariate methods The author shows how understanding multivariate methods is much more achievable when we notice the themes that underlie these statistical techniques This multiple level approach also provides greater reliability and validity in our research After

providing insight into the core themes the author illustrates them as they apply to the most popular multivariate methods used in the social and behavioral sciences First two intermediate methods are explored multiple regression and analysis of covariance Next the multivariate grouping variable methods of multivariate analysis of variance discriminant function analysis and logistic regression are explored Next the themes are applied to multivariate modeling methods including multilevel modeling path analysis confirmatory factor analysis and latent variable models that include exploratory structural methods of principal component and factor analysis The book concludes with a summary of the common themes and how they pertain to each method discussed in this book Intended for advanced undergraduate and or graduate courses in multivariate statistics taught in psychology education human development business nursing and other social and life sciences researchers also appreciate this book s applied approach Knowledge of basic statistics research methods basic algebra and finite mathematics is recommended Initiatives to raise young people's interest and participation in STEM Milagros Sainz,Katja Upadyaya,Sergi Fàbregues,2023-03-23

Prelims 2014 Life Science Paper 1 Exemplars Book Review: Unveiling the Power of Words
