**Prompt:** *Using a favorite quotation from an essay or book you have read in the last three years as a starting point, tell us about an event or experience that helped you define one of your values or changed how you approach the world. Please write the quotation, title and author at the beginning of your essay.*

In the Serenity Prayer by Reinhold Niebuhr, the author is quoted as saying "God, grant me the serenity to accept the things I cannot change, courage to change the things I can, and wisdom to know the difference". I didn't know the meaning of those lines until I came upon a challenging point in my life in which I was forced to choose between accepting the result of a decision, or continue to fight a battle that I did not have much hope of winning. I am writing this princeton admissions essay to further explain my circumstances and how they helped me to develop into a better individual.

When my parents decided to separate when I was eight years old, I decided I would try whatever I could to bring them back together. To me, I believed that they were better off together, and I would constantly try to create scenarios in which they would be forced to spend long periods of time together. Instead of making the situation better, I ended up catalyzing more fights and arguments between the two. This continued for five more years until one day I realized that my parents were only human, and that it was not up to me to decide the path of their lives.

Of course, I wanted to have they type of happy two-parent family that was often shown on sitcoms and advertisements. However, I learned that sometimes accepting someone else's decision, regardless of how much you may dislike it, is the best way for everyone to move forward. I learned to accept the decision of my parents that I could not change, and it has allowed me to develop a better relationship with both of my parents, as well as understand myself better.

W. E. B. Du Bois, 2014-12-03 Early essays from the sociologist displaying the beginnings of his views on politics society and Black Americans status in the United States This volume assembles essential essays some published only posthumously others obscure another only recently translated by W E B Du Bois from 1894 to early 1906 They show the first formulations of some of his most famous ideas namely the veil double consciousness and the problem of the color line Moreover the deep historical sense of the formation of the modern world that informs Du Bois s thought and gave rise to his understanding of the problem of the color line is on display here Indeed the essays constitute an essential companion to Du Bois s 1903 masterpiece *The Souls of Black Folk* The collection is based on two editorial principles presenting the essays in their entirety and in strict chronological order Copious annotation affords both student and mature scholar an unprecedented grasp of the range and depth of Du Bois s everyday intellectual and scholarly reference These essays commence at the moment of Du Bois s return to the United States from two years of graduate level study in Europe at the University of Berlin At their center is the moment of Du Bois s first full self reflexive formulation of a sense of vocation as a student and scholar in the pursuit of the human sciences in their still nascent disciplinary organization that is the institutionalization of a generalized sociology or general ethnology as they could be brought to bear on the study of the situation of the so called Negro question in the United States in all of its multiply refracting dimensions They close with Du Bois s realization that the commitments orienting his work and intellectual practice demanded that he move beyond the institutional frames for the practice of the human sciences The ideas developed in these early essays remained the fundamental matrix for the ongoing development of Du Bois s thought The essays gathered here will therefore serve as the essential reference for those seeking to understand the most profound registers of this major American thinker A seminal contribution to the history of modern thought Compiled and edited by the world s preeminent scholar of early Du Boisian thought these texts represent his most generative period when Du Bois engaged every discipline helped construct modern social science employed critical inquiry as a weapon of antiracism and political liberation and always set his sites on the entire world We know this not by the essays alone but by Nahum Dimitri Chandler s brilliant original and quite riveting introduction If you are coming to Du Bois for the first time of the 500th time this book is a must read Robin D G Kelley author of *Freedom Dreams The Black Radical Imagination*
