Elaborate (15 minutes):

1. Challenge students to create a visual representation of the water cycle using the poster paper and markers.

3. After completing their posters, groups can present their creations to the class and explain the significance of each stage.

Evaluate (5 minutes):

1. Wrap up the lesson by asking students to write down one thing they learned about the water cycle and one question they still have.
2. Collect students' responses to assess their understanding of the lesson objectives.
