It's hard to go through school, and no one hears about F. M. Dostoyevsky. His work 'Crime and Punishment' is so much in the general culture that even those who have not read this extensive book know what it is all about. This is why the book is still a must read after so much time.

There is no uncertainty as to who committed the murder, which is the information we are dealing with since the beginning of the novel. That is why there are other categories in which we include this novel. Because of the fact of the fantastic outline of the psychological profile of Raskolnikov before, during and after the murder, this is a psychological novel. Through
