

Analytical Research Paper Sample: Impact of Advertising on Adolescents' Mentality

Abstract

This research is dedicated to the controversial topic of advertising to children. The researcher has analyzed two points of view with regard to the responsibility for the effects of advertisement on adolescent mentality. The research is focused both on measures that should be taken by parents within the family and by government at the state level in order to decrease the negative impacts of advertising. The researcher also offers efficient methods to solve the problem of negative effects of advertisement on children.

Introduction

Advertising is an indispensable part of the modern informational space. A great amount of advertising on TV and on the internet has a significant impact on adolescents' mentality, as children lack the experience and knowledge that would help them to differentiate real facts and marketing tools. Commercials influence adolescents' worldview in a negative way and enhance the attractiveness of a consumer lifestyle.

There are two main controversial points of view on the responsibility of advertising. The first statement claims parents to be responsible for protecting their children from the negative impact of advertising. The second statement considers this issue to be a problem that should be solved at the state level. This research is aimed at analyzing existing viewpoints with regard to influence of advertising on adolescents' mentality. The research will also offer a range of methods that will be helpful for channeling and restricting the negative effects of advertisements on children.

Paper Trade Journal , 1921 Solid Sample Analysis Ulrich Kurfürst, 2013-04-17 The analysis of solid materials by introducing solid test samples directly into the graphite furnace of an atomic absorption spectrometer must be regarded as a powerful analytical approach Even if it is of course not the ultimate method After three decades of development the instrumentation and the methodology are available to apply solid sampling successfully for the analysis of almost every material Moreover several tasks cannot be solved using other analytical methods as neatly as they can using direct solid sampling The conventional methods work more or less satisfactorily so why do we suggest applying solid sampling much

more extensively than it is today To begin with the features pointed out time and again should be named Rapidity of the analytical procedure low susceptibility to analyte loss or contamination very small quantities can be analyzed and expenditure on instrumentation and personnel is also low These properties are examined and the necessary conditions are discussed Chapter 1 as are the analytical tasks Chapter 6 for which use of this method is advantageous Other features that are often overlooked are just as important The simplicity of the analytical procedures allows the analyst to maintain an intimate relationship with the original scientific task that has to be solved with the analysis Furthermore the considerable reduction of workplace hazards and pollution by avoiding the use of chemical reagents must nowadays be assessed as a feature as important as the others

that his mentors had told him 25 years ago but didn't. The material in the book is drawn from many years of finding all these things out for himself usually by trial and error but mostly error. The text adopts a much lighter touch than is normally found in books of this type after all who really wants to read a book about writing research papers. The author describes his own unique approach to writing journal papers which in his own words has proved to be extremely successful. All major points are illustrated with examples from his own published works. The book is written in the form of a manual for constructing a journal manuscript: read a chapter write a section. However the material it contains goes beyond just this and also describes how to select a target journal the manuscript submission process what referees are looking for in a good journal paper and how to deal with the referees' comments. Each chapter concludes with a checklist to ensure all the key elements have been addressed.
