

SERVICE MANUAL 028/038

FOREWORD

This Service Manual covers model 028 chain saws up to machine number 5561640 as well as later machines unless technical information bulletins have been issued in the meantime with updated repair procedures.

Models 038 have substantially the same constructional features as model 028 chain saws. This Service Manual can therefore be used for the 038 chain saws as well.

In the event of faults it is quite possible that a **single malfunction may have several causes**. It is, therefore, advisable to consult the "troubleshooting charts" when tracing faults. We also recommend that you make use of the exploded views in the illustrated parts lists while carrying out repair work.

This service manual and all technical information bulletins are intended exclusively for the use of STIHL servicing staff and dealers and must not be passed on to third parties.

Repair work is made considerably easier if the chain saw is mounted on assembly stand 59108503100. The saw is easily attached to the stand by means of the two stud bolts and collar nuts for bar mounting.

While on the assembly stand, the chain saw can be swivelled into any required position to suit the repair in question. This not only has the advantage of keeping the component in the best position for the repair, but also leaves both hands free for the work, and thus represents a considerable time-saving.

SPECIAL TOOL
MANUAL

Our special tool manual illustrates and lists the part numbers of all available machine-related tools as well as general purpose tools for all machines.

The special tool manual is available in various languages and can be ordered by quoting the appropriate part number listed hereunder.
