

Important adjustments

Warning!

At correct idle speed, the cutting tool should not turn. For directions to adjust idle speed, see the appropriate section of your owner's manual.

Do not use a brushcutter with incorrect idle speed adjustment. Adjust the idle speed yourself according to the instructions in your manual. If you cannot set the correct idle speed, have your STIHL dealer check your brushcutter and make proper adjustments or repairs.

Warning!

Never touch a rotating cutting tool with your hand or any part of your body. It continues to rotate for a short period after the throttle lever is released (flywheel effect).

Do not cut any material other than grass, brush and wood. The cutting tools may be used only for the operations described in your manual.

Operating instructions

With the engine running, attach the brushcutter to the spring hook of your harness (ill. 7).

Warning!

Improper use of any brushcutter/trimmer can cause serious or fatal injury.

To reduce the risk of personal injury:

- never use any metal cutting attachment on a brushcutter that has a flexible shaft and loop handle,
- never use a circular saw blade on a brushcutter that has a straight shaft and loop handle.

Read, understand and follow carefully all safety instructions in your Owner's Manual before operating these products.
