

Safety Precautions

The use of any brushcutter may be hazardous. If the rotating cutting tool comes in contact with your body, it will cut you. When it comes in contact with solid foreign objects such as rocks or bits of metal it may fling them in the direction of bystanders or the operator towards the operator.

Warning!

Because a Brushcutter is a high-speed, fast cutting power tool, special safety precautions must be observed to reduce the risk of personal accidents.

It is important that you read, fully understand and observe the following safety precautions and warnings. Read the Owner's Manual and the safety instructions periodically. Careless or improper use of any Brushcutter may cause an accident or fatal injury.

Have your STEEL dealer show you how to operate your brushcutter. Observe all applicable local safety regulations, standards and ordinances.

Warning!

Minors should never be allowed to use a Brushcutter. Bystanders, especially children and animals should not be allowed in the area where a Brushcutter is in use (Fig. 1).

Never let the Brushcutter run unattended.

Do not lend your Brushcutter without the Owner's Manual. Be sure that anyone using your Brushcutter understands the information contained in this Manual.

These safety precautions and warnings apply to the use of all STEEL Brushcutters. Different models may have different parts and controls. See the appropriate section of your Owner's Manual for a description of the controls and function of the parts of your model Brushcutter.

Safe use of a Brushcutter involves:

1. The Operator
2. The Brushcutter
3. The Use of the Brushcutter

THE OPERATOR

Physical Condition

You must be in good physical condition and mental health and not under the influence of any substance (drugs, alcohol, etc.) which might impair vision, dexterity or judgment. Do not operate a Brushcutter when you are fatigued (Fig. 2).
