Peacekeepers at War Col. Timothy J. Geraghty, USMC (Ret.), 2009-09-30 On October 23 1983 nearly simultaneous suicide truck bombings killed 241 U S peacekeepers in their barracks at the Beirut International Airport BIA and 58 French paratroopers at their headquarters two miles north of BIA In this long awaited book the Marine Corps commander of the U S

Multi National Peacekeeping Force that was destroyed by terrorists in Lebanon tells his story for the first time Together these suicide bombings comprised the largest nonnuclear explosion ever recorded and are now recognized as a seminal event leading to the current war on terrorism Such acts of war revealed a new highly effective tactic which complemented the terrorist s strategic goals the withdrawal of the peacekeepers and Western influence from Lebanon and a change in U S policy Peacekeepers at War lays out in detail a sequence of events leading up to the suicide truck bombings from which one can extrapolate the rationale motives and perpetrators behind it Geraghty argues that the absence of any retribution against the perpetrators emboldened the terrorists to assume they could attack Americans and Western interests with impunity This led to kidnappings torture and the murders of Americans and other Westerners Peacekeepers at War will be of interest to general readers who want to learn more about this seminal event and its effects on the current global war on terrorism

Force Recon Diary, 1970 Bruce H. Norton,2013-11-15 The quiet of the night was again shattered by the thunderous roll of incoming artillery shells spaced five seconds apart ripping the jungle to pieces as huge chunks of earth and vegetation blew skyward under the brilliant flashes of orange and white explosions The possibility of encountering more NVA troops moving through our area was high as we had pushed a very great stick into their nest But our demonstrated ability to find the enemy and wait for the most opportune time to hit him while remaining totally undetected gave us reason to be pleased It also gave the NVA reason for concern In Force Recon Diary 1970 Bruce Doc Norton offers a harrowing sequel to his best selling Force Recon Diary 1969 continuing the true story of a navy corpsman who became a Force Recon Team Leader behind enemy lines in the jungles of Vietnam In the midst of a war set deep in the

jungle the Force Recon Marines often found themselves lacking food drinkable water explosives or even enough radio batteries Armed with only their own courage skills and loyalty to their brothers in arms the Marines used stealth and cunning to survive in the harsh conditions of Vietnam where one mistake could prove fatal not just for an individual Marine but for the entire unit

Force Recon Diary, 1969 Major Bruce H. Norton, 2015-09-16 Elite and highly trained the 3d Force Recon s eight man teams were assigned to obtain vital information about NVA operations Alone the men of these small teams were sent behind enemy lines where they all knew that a single mistake could cost everyone their lives United States Navy Hospital Corpsman Bruce Norton was the only navy corpsman to act as a Marine Force Recon Team Leader In *Force Recon Diary 1969* Doc Norton chronicles his life mission by mission with the 3d Force Recon in the DMZ and the A Shau Valley He describes the tense patrols the supreme courage the sacrifices in ambushes and hot landing zones that made this courageous company one of only two Marine units during the entire Vietnam War to receive the United States Army s Valorous Unit Citation

Chasing Charlie Richard Fleming, 2018-03-29 Richard Fleming served as a scout with the elite U S Marine 1st Force Reconnaissance Company during the bloodiest years of the Vietnam War Dropped deep into enemy territory Recon relied on stealth and surprise to complete their mission providing intelligence on enemy positions and conducting raids prisoner snatches and ambushes Fleming s absorbing memoir recounts his transformation from idealistic recruit to cynical veteran as the war claimed the lives of his friends and the missions became ever more dangerous

The Nam One Marine's Journey During the Vietnam War George Alexander, 2023-09-26 The Nam is a riveting and harrowing account of the Vietnam War The author s unique experiences took him from running point for Marine infantry units as a Scout Dog Handler to being a team leader with 3rd Force Recon Company deep in the jungles of Vietnam He explains how Force Recon Marines brought the fight to the enemy conducting stingray operations using artillery and air strikes Often completely surrounded we had to fight our way out Written from the perspective of a young Marine serving in a war torn country he gives a personal account of his combat experiences fighting the NVA and the Viet Cong After decades of contemplation the author gives a political commentary on this unpopular war characterized by mismanagement detailing his thoughts on the biggest lessons of the Vietnam War

Eye of the Tiger John Edmund Delezen, 2003-07-25 We live together under the thick canopy each searching for the other the same leeches and mosquitoes that feed on our blood feed on his blood John Edmund Delezen felt a kinship with the people he was instructed to kill in Vietnam they were all at the mercy of the land His memoir begins when he enlisted in the Marine Corps and was sent to Vietnam in March of 1967 He volunteered for the Third Force Recon Company whose job it was to locate and infiltrate enemy lines undetected and map their locations and learn details of their status The duty was often painful both physically and mentally He was stricken with malaria in November of 1967 wounded by a grenade in February of 1968 and hit by a bullet later that summer He remained in Vietnam until December 1968 Delezen writes of Vietnam as a man humbled by a mysterious country and horrified by acts of brutality The land was his

enemy as much as the Vietnamese soldiers He vividly describes the three canopy jungle with birds and monkeys overhead that could be heard but not seen venomous snakes hiding in trees and relentless bugs that fed on men He recalls stumbling onto a pit of rotting Vietnamese bodies left behind by American forces and days when fierce hunger made a bag of plasma seem like an enticing meal He writes of his fallen comrades and the images of war that still pervade his dreams This book contains many photographs of American Marines and Vietnam as well as three maps *Swift, Silent and Deadly* Michael J Schneider,2024-05-07 *Swift Silent and Deadly Recon Marines* tells the story of Recon Marine heroes in Vietnam Many of the men covered in the book are no longer with us Some were casualties of the war Others just haven't survived the years that have passed since the end of the war There are still plenty around to tell their story however and some of those are included in this book This book contains stories of U S Marines who performed reconnaissance duties in Vietnam during the war there The duty was hazardous in that they operated in small units usually a seven man team in areas held by enemy forces Viet Cong and or North Vietnam Regular Army In so far as possible I've included background of the men during their youth I hope that today's youth will consider them heroes to emulate

Whispers in the Tall Grass Nick Brokhausen,2019-10-19 An exceptionally raw look at the Vietnam War an excellent tribute to the generation that fought laughed and died in Southeast Asia New York Journal of Books This is the second volume of a Green Beret's riveting memoir of his time serving in Recon Teams Habu and Crusader CNN part of Military Assistance Command Vietnam Studies and Observations Group MACV SOG Picking up where *We Few* left off *Whispers in the Tall Grass* opens as the war moves into a new phase The enemy are using special formations to hunt recon teams and missions are now rarely accomplished without heavy contact Despite the teams careful prep losses are mounting More and more missions are extracted by Bright Lights until eventually classic recon missions are almost impossible and the teams briefly trial HALO insertion Finally as the US prepares to withdraw the teams undertake back to back missions directing air strikes and disrupting supply lines to ease the pressure on the ARVN Broken by the pace but desperate not to leave the Yards Brokhausen is ordered to out process his request for extension denied and is forced to leave his friends his brothers behind Written in the same vivid immediate style that made *We Few* a cult classic *Whispers in the Tall Grass* follows Habu Crusader and other teams as they undertake missions in this new deadlier phase of the war The narrative veers from hair raising to tragic and back as the teams insert into hot targets act as Bright Light for stricken teams and play hard in between missions to diffuse the ever rising tension Brokhausen tells all in a masterfully gonzo style of reporting and recollection shaped by clever gallows humor Booklist

Swift, Silent and Deadly: Recon Marines in Vietnam Michael Schneider,2017-04-14 Imagine being one of a 7 man team in the middle of a jungle where any person you might encounter will try to kill you This is enemy territory inhabited by an unknown number of enemy combatants You might encounter 1 or 2 of the Viet Cong or North Vietnamese Army or just as easily 50 or more In addition there is the danger of man eating tigers and poisonous snakes Your mission is to find the enemy without them finding you You are to

report their position so that artillery batteries bombers or helicopter gunships can destroy them without risking the lives of infantrymen in a hazardous jungle assault You must keep quiet lest you be detected The brush is so thick it s hard not snap twigs or crunch brush You find a trail but you can t walk on it because it may be booby trapped with land mines What sort of men would willingly undertake such a mission Swift Silent Deadly tells the story of Recon Marine heroes in Vietnam Many of the men covered in the book are no longer with us Some were casualties of war Others just haven t survived the years that have passed since the end of the war There are still plenty around to tell their story however and some of those are included in this book
