Still Life Elisha Cohn, 2016 Still Life Suspended Development in the Victorian Novel rethinks the nineteenth century aesthetics of agency through the Victorian novel s fascination with states of reverie trance and sleep These states challenge contemporary scientific and philosophical accounts of the perfectibility of the self which privileged reflective self awareness In dialogue with the field of literature and science studies and affect studies this book shows how Victorian writers used narrative form to respond to the analytical practices and knowledge production of those other disciplines Drawing upon canonical texts by Charlotte Bront George Eliot George Meredith and Thomas Hardy Still Life contends that depictions of non purposive perceptual experience suspend the processes of self cultivation Bildung central to Victorian aesthetics science psychology and political theory as well as most critical accounts of the novel form Departing from the values of individual cultivation and moral revelation associated with the genre these writers offer an affective framework for understanding the subtly non instrumental powers of narrative Victorian novels ostensibly working within the parameters of the Bildungsroman are suspended by moments of still life a decentered lyricism associated with states of diminished consciousness They use this style to narrate what should be unnarratable experiences not dependent on reflective consciousness which express a distinctive ambivalence toward dominant developmental frameworks of individual

The Oxford History of the Novel in English Cyrus R. K. Patell, Deborah

Lindsay Williams, 2024-03-05 The Oxford History of the Novel in English is a twelve volume series presenting a comprehensive global and up to date history of English language prose fiction written by a large international team of scholars The series is concerned with novels as a whole not just the literary novel and each volume includes chapters on the processes of production distribution and reception and on popular fiction and the fictional sub genres as well as outlining the work of major novelists movements and tendencies This book offers an account of US fiction during a period demarcated by two traumatic moments the eve of the entry of the United States into the Second World War and the onset of the Covid 19 pandemic The aftermath of the Second World War was arguably the high point of US nationalism but in the years that followed US writers would increasingly explore the possibility that US democracy was a failure both at home and abroad For so many of the writers whose work this volume explores the idea of nation became suspect as did the idea of national literature as the foundation for US writing Looking at post 1940s writing the literary historian might well chart a movement within literary cultures away from nationalism and toward what we would call cosmopolitanism a perspective that fosters conversations between the occupants of different cultural spaces and that regards difference as an opportunity to be embraced rather than a problem to be solved During this period the novel has had significant competition for the US public's attention from other forms of narrative and media film television comic books videogames and the internet and the various forms of social media that it spawned If however the novel becomes a residual form during this period it is by no means archaic The novel has been reinvigorated over the past eighty years by its encounters with both emergent forms such as film television comic books and digital media and the emergent voices typically associated with multiculturalism in the United States

Athenaeum and Literary Chronicle, 1837 *The Oulipo and Modern Thought* Dennis Duncan, 2019-07-08 The impact of the Oulipo Ouvroir de Littérature Potentielle one of the most important groups of experimental writers of the late twentieth century is still being felt in contemporary literature criticism and theory both in Europe and the US Founded in 1960 and still active today this Parisian literary workshop has featured among its members such notable writers as Italo Calvino Georges Perec and Raymond Queneau all sharing in its light hearted slightly boozy bonhomie the convivial antithesis of the fractious volatile coteries of the early twentieth century avant garde For the last fifty years the Oulipo has undertaken the same simple goal to investigate the potential of constraints in the production of literature that is formal procedures such as anagrams acrostics lipograms texts which exclude a certain letter and other strange and complex devices Yet far from being mere parlour games these methods have been frequently used as part of a passionate though sometimes satirical involvement with the major intellectual currents of the mid twentieth century Structuralism psychoanalysis Surrealism analytic philosophy all come under discussion in the group's meetings and all find their way in the group's exercises in ways that while often ironic are also highly informed Using meeting minutes correspondence and other material from the Oulipo archive at the Bibliothèque nationale de France *The Oulipo and Modern Thought* shows how the group have used constrained

writing as means of puckish engagement with the debates of their peers and how as the broader intellectual landscape altered so too would the group's conception of what constrained writing can achieve

Art of the Everyday Ruth Bernard Yeazell, 2008 Realist novels are celebrated for their detailed attention to ordinary life But two hundred years before the rise of literary realism Dutch painters had already made an art of the everyday pictures that served as a compelling model for the novelists who followed By the mid 1800s seventeenth century Dutch painting figured virtually everywhere in the British and French fiction we esteem today as the vanguard of realism Why were such writers drawn to this art of two centuries before What does this tell us about the nature of realism In this beautifully illustrated and elegantly written book Ruth Yeazell explores the nineteenth century's fascination with Dutch painting as well as its doubts about an art that had long challenged traditional values After showing how persistent tensions between high theory and low genre shaped criticism of novels and pictures alike *Art of the Everyday* turns to four major novelists Honor de Balzac George Eliot Thomas Hardy and Marcel Proust who strongly identified their work with Dutch painting For all these writers Dutch art provided a model for training themselves to look closely at the particulars of middle class life Yet even as nineteenth century novelists strove to create illusions of the real by modeling their narratives on Dutch pictures Yeazell argues they chafed at the model A concluding chapter on Proust explains why the nineteenth century associated such realism with the past and shows how the rediscovery of Vermeer helped resolve the longstanding conflict between humble details and the aspirations of high art
