No Intake For Zrp 2015:

Handbook of Research on Network-Enabled IoT Applications for Smart City Services Reddy, K. Hemant Kumar, Roy, Diptendu Sinha, Mishra, Tapas Kumar, Hussain, Mir Wajahat, 2023-09-26 The rapid growth of IoT and its applications in smart cities pose significant challenges for academic scholars. The increasing number of interconnected devices and the massive amounts of data they generate strain traditional networks, leading to inefficiencies and security vulnerabilities. Additionally, the centralized control plane in Software Defined Networks (SDN) presents a single point of failure, hindering network performance, while IoT devices themselves are susceptible to attacks compromising user data and privacy. To address these pressing issues, *Network Enabled IoT Applications for Smart City Services* offers a compelling solution. Edited by Dr K Hemant Kumar Reddy, Dr Diptendu Sinha Roy, and Tapas Mishra, this book advocates leveraging SDN to handle high frequency data streams effectively. It also proposes the integration of blockchain technology to enhance security and reliability in IoT applications, offering a roadmap for scholars to improve network efficiency, security, and reliability in IoT and smart city domains. With their extensive expertise, the authors provide academic scholars with a comprehensive and innovative resource that inspires further research and development in this evolving field, enabling them to make significant contributions to the advancement of IoT and smart city technologies.

Proceedings of International Conference on ICT for Sustainable Development Suresh Chandra Satapathy, Amit Joshi, Nilesh Modi, Nisarg Pathak, 2016-02-10 The two volumes of this book collect high quality peer reviewed research papers presented in the International Conference on ICT for Sustainable Development (ICT4SD 2015) held at Ahmedabad, India, during 3-4 July 2015. The book discusses all areas of Information and Communication Technologies and its applications in the field of engineering and management. The main focus of the volumes are on applications of ICT for Infrastructure, e-Governance, and contemporary technologies, advancements in Data Mining, Security, Computer Graphics, etc. The objective of this International Conference is to provide an opportunity for the researchers, academicians, industry persons, and students to interact and exchange ideas, experience, and expertise in the current trend and strategies for Information and Communication Technologies.

Advanced catalytic materials and technologies in biomass conversion Xianxiang Liu, Pau Loke Show, Haian Xia, Jun Yue, 2023-04-06 **Tailored Organic-Inorganic Materials** Ernesto Brunet, Jorge L. Colón, Abraham Clearfield, 2015-04-27 This book explores the limitless ability to design new materials by layering clay materials within organic compounds. Assembly, properties, characterization, and current and potential applications are offered to inspire the development of novel materials. Coincides with the government's Materials Genome Initiative to inspire the development of green, sustainable, robust materials that lead to efficient use of limited resources. Contains a thorough introductory and chemical foundation before delving into techniques, characterization, and properties of these materials. Applications in biocatalysis, drug delivery, and energy storage and recovery are discussed. Presents a case for an often overlooked hybrid material: organic-clay materials.

Advances on Intelligent

Computing and Data Science Faisal Saeed, Fathey Mohammed, Errais Mohammed, Tawfik Al-Hadhrani, Mohammed Al-Sarem, 2023-08-16 This book presents the papers included in the proceedings of the 3rd International Conference of Advanced Computing and Informatics ICACin 22 that was held in Casablanca Morocco on October 15 16 2022 A total of 98 papers were submitted to the conference but only 60 papers were accepted and published in this book with an acceptance rate of 61% The book presents several hot research topics which include artificial intelligence and data science big data analytics Internet of Things IoT and smart cities information security cloud computing and networking and computational informatics Emergence of Cyber Physical System and IoT in Smart Automation and Robotics Krishna Kant Singh, Anand Nayyar, Sudeep Tanwar, Mohamed Abouhawwash, 2021-05-04 Cyber Physical Systems CPS integrate computing and communication capabilities by monitoring and controlling the physical systems via embedded hardware and computers This book brings together new and futuristic findings on IoT Cyber Physical Systems and Robotics leading towards Automation and solving issues of various critical applications in Real time The book initially overviews the concepts of IoT IIoT and Cyber Physical Systems followed by various critical applications and discusses the latest designs and developments that provide common solutions for the convergence of technologies In addition the book specifies methodologies algorithms and other relevant architectures in various fields that include Automation Robotics Smart Agriculture and Industry 4 0 The book is intended for practitioners enterprise representatives scientists students and Ph D Scholars in hopes of steering research further towards cyber physical systems design and development and implementation across various domains Additionally this book can be used as a secondary reference or rather one stop guide by professionals for real life implementation of cyber physical systems The book highlights A Critical Coverage of various domains IoT Cyber Physical Systems Industry 4 0 Smart Automation and related critical applications Advanced elaborations for target audiences to understand the conceptual methodology and future directions of cyber physical systems and IoT An approach towards Research Orientations to enable researchers to point out areas and scope for implementation of Cyber Physical Systems in several domains for better productivity *Patient Autonomy and Criminal Law* Paweł Daniluk, 2022-10-21 This book shows how the legal systems of individual European countries protect patient autonomy In particular it explains the role of criminal law that is what criminal law protection of patient autonomy looks like on a European scale in both legal and social dimensions Despite EU integration processes the work illustrates that the legal orders of individual European countries are far from uniform in this area The concept of patient autonomy here is generally in the context of the patient's freedom from unwanted medical activities the so called negative freedom At the same time in countries where there are no regulations clearly criminalising the performance of a therapeutic activity without the patient's consent the so called positive freedom is also discussed The book will be a valuable reference work for academics researchers and policy makers working in Health Law Medical Ethics Applied Ethics and Criminal Law **New Horizons in Health-Promoting Technologies: From Development to Rational Use** Luciane
