Transforming Hitler's Germany Tim Heath,Annamarie Vickers,2022-12-02 As the last flames of the Second World War flickered and died Germany emerged into an apocalyptic wasteland where the Hitler Youth generation would be cursed with the running sore of National Socialism With the uncaged bear of the Soviet Union flexing its muscles and the escalating tensions between East and West providing some distraction from the funeral pyre of the Third Reich those living in West Germany soon understood that they were the geological bulkhead a component in the prevention of communism spreading throughout the infantile peace of post Second World War Europe Despite all the destruction and political tensions which surrounded them the young men and women of Germany were keen to experience the world beyond their own precarious borders In August 1945 Tia Schuster and Lisa Kraus were two fourteen year old Berliners and like many they found themselves shoehorned into what was to be the second new era of their young lives The first had brought about only death and destruction yet this second had a cold unfamiliarity about it As the late 1940s gave way to the 1950s and 60s a series of new decadent eras of rock n roll fashion flower power and sexual revolution was on the horizon which posed a threat to the traditional German way of life championed by the Nazi regime and post Second World War German government With this heady mixture of newfound freedom the youth of Germany unwittingly became a feature of everything that both fascism and communism despised This unique work tells the story of the tentative steps taken by young men and women into the afterlife of Nazi Germany Encompassing memoirs along the way it presents a quirky
